

June 16, 2009 Ashtar on the Road teleconference

Ashtar from "Ashtar on the Road," through Susan Leland, June 16, 2009:

Ashtar: Although we don't usually name names we shall honour those [involved in the clearings]. We honour Mark, Tara and Rama, and Beth, Kauwila, [and Terrence] and all of those who have participated in some manner in the clearings you have been reading about. And if you have not been reading about them, better catch up quickly. .

These dark energies now, we know, they're gone. . And this is the ultimate freedom for every human to stand tall and be free.

There were always those strong ones who, much like Darth Vader, had to go to the very end of the drama before they could finally be convinced in some manner or other to leave the planet and thus [leave] you, beloved humans, alone. .

We had said that there was a time and a date at which we would not allow these energies to continue their dark ways. What we meant . was simply that, when the sequence of events had flowed sequentially to coincide with the evolvments, the attunements, and alignments that you, beloved ones, had been offering consciously and unconsciously, that was what you might call the drop-dead date for those who wanted to keep you in the dark. What has died here is their ability to have any kind of a hold over you. So walk free, stand tall. .

You will find in the next few days that you have more energy. . These [dark] energies have been able to permeate everywhere, in everyone's energy field. .

When we say Monsanto is done, we mean it is done and not only that, but whatever residues they have lying around are done. See how it works? It is all energy. .

Everyone here has advanced from general scrubbing down into Q-tipping. Now that's a biggie. We shall review. We have been suggesting that you cleanse and clear. Use dendrite removals or whatever other energetic and spiritual methods that you have. Nurture and nourish your physicality.

Put your egos not exactly out to pasture but that's as good as anything. In other words, let your egos know with great love and affection that they have done a fabulous job for you, but it's time for them to take a rest.

Bring your inner child out to play. Perhaps your inner child can make your ego crack a smile or two or dance. . You're not destroying your ego or leaving it behind. We've been giving this advice for some time now. .

We confirm that all these wonderful things that you're reading about, they are true, so long as you know who to read because there are disinformation [specialists] out there. But it is going to get more and more difficult for the disinformation specialists to get anyone to believe them because you see the need for fear is pretty much over. .

They have nowhere to hide. They cannot steal your money anymore. They cannot enslave you. They cannot force unhappiness or low-vibe situations on you. . And they're starting to get it. .

The 13 Families . are starting to find out that they are not powerful. . They do not have their back-ups anymore. They do not have their dragons. . They don't have all of . their evil conjurers and so on. They are just not there any more. The Annunaki have pulled out a long time ago with their treaty with the Light but there were renegades. .

There is the great news. Confirmation. The world has turned a page or had a page turned. .

There were many more who were in support of these missions, higher beings, higher-family beings. .

There are still a few loose ends to tidy up but be not concerned. .

Along with the dark energies themselves have gone the technologies that they were trying to unloose. .

There were accesses to the planet that the off-planet dark hats . had. The red carpet has been jerked out from underneath them. They no longer have access. Reinforcements are not on the way. . The mop-up will be fast. .

You've been waiting for years for these events to unfold. . Does it amaze you how fast this is getting done? . The future is now. .

We know some of the participants were a bit in wonderment at times about whether this was all getting done or not and we want to assure you that it was. It was! It is! And so that just gives you an idea of how quickly the biggie can happen. .

We know there are some of you who are wondering how we are going to restore an old-growth forest in a week when we come among you. . We trust that these operations have given you a glimmer of how fast things can happen. .

It's party time. We are going to be celebrating. . The red carpet is going to be rolled out in a big way. . We have

the energies of the clean-up, the clearing going on. . You're going to feel more energized because you've plateaued.

We have some events planned. . There are going to be some biggies coming up soon. . No dates. Nevertheless, you haven't come this far to have a slowdown. You're going at warp speed now and, if you're having trouble recognizing that, remember this week that this was the week that was. .

You're going at warp speed. That's the plateau you've reached.

Mother Sekhmet:

It's all happened, occurred and finalized as stable. . Thank you for being the back-up to these courageous ones who have done such a great mission. Now you know these ones are way more than human, as you are, but there had to be representations on these missions by those who were at least partially human in human bodies. We just want to say that their courage has been shown throughout the universe and they are honoured. .

No dates, but for the mission the date has come. Everything is flowing very well. . Everything is in a state of readiness, almost to the nanosecond. Got it? .

We shall honour the tradition of no dates but be advised that the way is a lot clearer now than a few days ago, as you measure. . We may show up at a few parties. We shall be delighted if we can be at multiple locations.
