

## **MOTHER SEKHMET CALL dated 8/27/09 -**

### **Part 1 (Roundtable)**

???: I just wanted to finish the thought about Pluto being in Capricorn which literally means over the next 17 years, that we will have continual exposure of everything. Like you said positive or negative concerning corporations, concerning governments, politics on every and any level. That is what is going to be revealed to us over these next 17 years.

Because it's sitting there and I guess it's the furthest planet out. Richard might correct me on that. It takes a very long time so it stays in one place for a very long time. So it's a good time for all that to be happening right now so that we can get this exposure. So we can clear it all out and clean it all out so it's no surprise to me that Pluto sits on top of Capricorn this whole time when we need it the most.

DYANNA: Hello everyone. I send you love on this beautiful day today. The day that we are honoring a beautiful soul, Senator Edward Kennedy who has made his passing and I ask that we hold him in the light and lift up his family. Because he went out with a lot of wonderful love and his passing is going to mark a beginning for all of us. A new beginning and I believe it's going to bring people together. His passing. And I think he knew that before he passed so I just wanted to hold him in the light. And I just wanted to further comment if I could a little bit about the Pluto/Capricorn energy. Capricorn rules all that is structured in our reality and those structures that do not serve the needs of the many and only the needs of the few are going to go bye-bye. And that is what it means when Pluto is sitting on Capricorn. It means structures that have been built in the past that really do not serve the needs of the people are going to go bye-bye and we're going to build new structures and new institutions that will truly serve the needs of the planet. And every living creature on this planet whether it being a 4 legged or a 2 legged or a tree or any arid self because that's what we all came here to do. So even though it seems, you know, everybody's taking a big breath and saying OMG 17 more years, what are we going to do? That is a long process of changing those structures and we know with NESARA, those structures will change very quickly. This has been planned for many hundreds and even thousands of years that would come to fruition at this time. We are in the moments called the fullness of time and what that means is that a momentum of change as the Earth has moved in the 5th dimension is carrying us all like a big wave of bliss, a big wave of love. And all we need to do really, is honor our hearts and honor all things because that will carry us through. That is the energy of healing that is taking place within everything. All of the structures. So bring it on. And I bless Senator Edward Kennedy and his family and I know all of your hearts are also watching all of this. There's an outpouring of love that is happening with these next couple of days as he and his family honor him and let's all just connect with that and hold the light. So I love you all. Namaste'.

BIGWILL: For the last week or so, I been feeling the remnants of ascensionitis. And what I noticed was, the last week, I've been taking my body temperature and the average body temperature is 98.6. For all week long, I've been noticing my body temperature is 97.1 or 97.3 and the highest it's ever been is 97.6. So what I want to know if Tara and Rama can answer this later on, is that since our DNA structure is being adjusted, the body temperature has lowered so if everyone would take out their thermometer and just register their body temperature, you will see that the average body temperature is stabilizing to 97. No longer 98.6.

MARIETTA: Well we'll do a little research project here and see what everyone else finds and see if that is a universal truth here or whether that's just a Texas truth.

Note from Shirley/Transcriber: I did not add Dihydrogen Monoxide (DHMO) How Gullible are we? Because it was a hoax created in 1990. In 1997, Nathan Zohner, a 14-year-old junior high student at Eagle Rock Junior High School in Idaho Falls, Idaho, gathered 43 votes to ban the chemical, out of 50 people surveyed among his classmates. Zohner received the first prize at Greater Idaho Falls Science Fair for analysis of the results of his survey.[4] In recognition of his experiment, journalist James K. Glassman coined the term "Zohnerism" to refer to "the use of a true fact to lead a scientifically and mathematically ignorant public to a false conclusion." [10]

Reference: [http://en.wikipedia.org/wiki/Dihydrogen\\_monoxide\\_hoax](http://en.wikipedia.org/wiki/Dihydrogen_monoxide_hoax).

DONNA: This question is for Mark. I have 2 questions actually. It says that Ted Kennedy have been said, we knew he was killed with an EMP strike and that a walk-in had taken over. Okay. In view of clones and holograms that could be used, is there any significance to Ted Kennedy leaving the stage right now? And the other question, all 4 of Joe Kennedy's sons have ended in a violent death. Is there any significance in that?

MARK: Absolutely. What we were told, is the reason they did this, is the 2 big Motherships seen in China were seen by millions of people. It is all over the Internet and is one of the hottest stories there and it is going to continue because this is going to go around the world. Not just those 2 Motherships, but we were also told

that within a few days (no exact dates) that there would be more. So what they are trying to do, is take that story out of the front pages and off the people's consciousness. Unfortunately, they don't get their way because it is all over the Internet and everybody is still talking about it. But that is the reason that he was removed at that time. Sad to say, but that's it.

DONNA: Is there any significance that all of Joe Kennedy's sons have died a violent death?

MARK: Of course. It is because they were all taken out and Rama and Tara when they come on, or Mother, may give you some more information about that issue and how it happened.

KAUILA: I just thought I would chime in here with.....You know, my place over here, I live right by the ocean. Fortunately, I can walk out to the rocks and sit there and watch what goes on out in the ocean. I've never seen any goings on for as long as I've been here. At least out the ocean way. And starting, I guess it was Saturday night, I started to see these lights occurring out there and there were a couple of lights that I thought could be fishing boats. They started out white and they would turn red. Then a couple of them started to occasionally pop up and sort of sparkle. Different colors. Blue, red, green, yellow and little sparklers would come out of them. And then I saw a couple that appeared to be coming from the airport and they weren't planes. They clearly were not jets or planes with the constant red, white and yellow lights. These were sparklers. I mean they were like sparkling the whole way. And the other thing I noticed in the starry sky, I would feel joy in my heart and would say, oh so nice to see you tonight. You know, I would see these little twinklers up in the sky, these little stars. They were twinkling different tonight. Well I've seen some of them before. So I put my thumb up real close to my cheek so I could sort of follow it. In other words, I put the star right at the tip of my thumb and keep it up against my cheek and not move my head so I could see. I thought oh it would be kind of neat if you could move a little bit. Almost every single point of light that I did that with, they started to move and they moved. And I'm not talking about just a millimeter or a tiny bit. We are talking about some widths - we are talking about a lot. There are so many stars I see now that are doing this. It's just absolutely amazing. So that has been my experience over here. I've seen this the last several nights. Last night, we had clouds at kind of at night time, but the last several nights and Saturday. I've been out there every night 2 or 3 times just to watch what is going on and the show is magnificent. And I know this is only the beginning.

JOYCE: From what Kauila was saying about seeing the stars move around which we know they are ships. Anyway, I've been doing that for over 3 years. My husband died in August 2006 and he proposed in the Grand Canyon at the El Ciblar Lodge. And so about 3 weeks after he died, a friend of mine and she's probably on the call tonight (Jean Wolf) and I went to the Grand Canyon because she had never seen it and then we went on to California. But anyway, I did a little field experiment because when you are in the Grand Canyon, you are about 4-5,000 feet high. And if you are right out there with the stars, I mean, there are just hundreds and thousands of them. In the field where I live, you just see 3 or 4 at night. You don't see all of these dust balls. All of them were moving around for me. So people would walk down. They had a walking path between the park benches and these were set up practically on the rim of the canyon. And so I would [inaudible] and these people who would walk by, and you would be surprised on how many wouldn't see anything moving. About 3 or 4 of them though could. I've done the same experiment where I live. My across the street neighbor happen to be outside talking when it got dark and I would say, hey, can you see that star over there moving. And he couldn't see it at all. Jean can see them moving, but some people can and some people can't. So I would like to know why some people can't. Anybody that wants to answer that.

MARIETTA: Well, one of the things, if you do not believe it exists, it may not exist for us. You have to sometimes they talk about, you have to see it to believe it. That's backgrounds. To believe it, to see it.

???: You are absolutely right Marietta Robert. It is part of our belief system. If it isn't part of our belief system, it is not there for us.

RAMA: This has been a very wild day in this part of the world and I can say that, like Commander Kauila talked about, the energies of the ships showing up on all levels. It is the fact that what is unfolding is our friends are here. They are not going away. On Monday, two giant Motherships showed up over China. I think it was called Shang Dong Province. And these Motherships were seen by millions of people and since Monday, today's Thursday, the story has gone viral across the Internet. It's on Twitter and there are many people talking about it and I am yet seen the YouTube video of it like Beth asked us. I'm still going to try to get it to you Beth. We've been in transition from going from one city to another. What I can truly say about this is that, post NESARA - these folks are here. They are not going away. And this is about First Contact on all levels and it is very interesting that these Motherships chose to appear over China because the Chinese people and the Japanese people are both Pleadian and Sirian and they follow that energy on the highest levels and the sham that's going on over there called Communist China is just that. It's a sham. It's the shell game of the 13 families and the GOP in exile going down the tubes. And the next moment, it will be gone and

this happening right now. It's interesting that between Monday, Ashtar on the Road came forward and talked about Lemuria. Energies of Mother Mu coming in and the Homeland.

TARA: And not Homeland Gestapo either.

RAMA: No. There [inaudible] or any of that. This is about Merc and Lady of the Sun returning with all the 14 Kumaras.

TARA: From Venus.

RAMA: From Venus. Donna Kumara, Lady Master Venus, Sanat Kumara and his twin flame, I think her name is Chula something and I forgot how to pronounce it. It is in Aztec. She is a water goddess. Sanat Kumara's twin flame. She shows up like the goddess of the water in a form almost like the Lady of the Star in the tarot cards.

TARA: Number 17 which adds up to an 8.

RAMA: Right. And all of this is relating to the fact that between Monday and now, what is going on is a few dog and pony shows which I'm happy to say that Senator Kennedy is not dead. They killed a clone/walk-in.

TARA: And it was the same clone that was already in there on the 20th of January. Same thing with Senator Robert Byrd. They put a clone in there and then the dark side thought they had killed both Robert Byrd and Senator Kenney on that luncheon day and Mother Sekhmet stepped in and put angels into their bodies and returned them back to their life force which was a big surprise for the darks. They were really shocked. Then they went ahead and cloned with the angel in it again and the real Senator Robert Bryd and Senator Kennedy are completely safe and they are going to be back.

RAMA: That's right and both the KOS has told me that along with Tom the Ring Tailed Cat. And post NESARA, these folks who will be testifying in the Hague against the Bush/Clinton Crime Family for acts of genocide and high treason against the people of the planet Earth.

TARA: Not to mention all the people they killed from their own families. JFK Sr., Bobby Kennedy Sr., John Jr. and then Martin Luther King, Malcolm X and W.E.B. Du Bois who was head of the NAACP. In 1906 he created that. Which means the Moors are coming back to tell the story of the Moorish flag that we weren't allowed to view when we went to the Smithsonian. The guards told us don't ask anymore questions of these kinds of places because they are very, very much wanting to do.... [interference]

RAMA: Also, I got a text message on Tuesday. Actually it was Wednesday when we heard about Ted Kennedy.

TARA: No. He left the planet.

RAMA: It was between Tuesday night and Wednesday.

TARA: It was like 1:30 in the morning.

RAMA: Yes. And then I got a message from Caroline Kennedy and she said I'm mad as hell and I'm not going to take it anymore. And my family is no longer a target and the fact of the matter is that justice will be served and it has to do with the Bush/Clinton Crime Family and I have to say that because it has to do with Miss Hillary and I won't go any further with that, but Caroline will come forward with the truth along with everyone else. And today on the Democracy Now, they were talking about 40 years ago coming up. Father Daniel Berrigan got in the streets along with 9 other people who were on trial for breaking into a draft board and they took out 350 files and burned them in the streets with homemade napalms and the message was, we would rather burn the files than the bodies of the Viet Cong or the North Vietnamese or the South Vietnamese. And it is about peace and right now Tim Robbins has come out with a new play called the Trial of Father Berrigan.

TARA : Daniel Berrigan and it opens tonight in LA.

RAMA: And this is about healing all these stories that are coming forward now and creating the atmosphere of peace so that our friends from the different parts of our galaxy and universes can land and help us with the extraordinary technologies which are not extraordinary. They are everyday normal reality in 5th dimension and higher. We are moving up in octave at the speed of light and sometimes it's a little wonky with the energies because we're not sure how to handle this and we go through tremendous changes including me and my emotions have been going up and down and all around in healing this. In the sense of bringing balance and peace with this and.....

TARA: I was going to also say that tonight on Keith Olbermann. He had Maxine Waters on and she was very calm and Keith was actually saying, you're a lot calmer than I am about this universal healthcare issue. And

what Maxine Waters was doing was verifying what we've been saying for quite a while that the dark side is desperate. She actually said those words on Keith tonight. And she said you are going to see a lot more from them and it's going to be craziness. They are all over the board, she said. They are not being stable. They are desperate and they are just grabbing at straws. It was really music to our ears to hear her say that. Coming from her, it was very awesome.

RAMA: Also, I just wanted to say that Joe Biden was talking today and it really moved me where I was sitting in the car crying my eyes out by what he said. And it was about the fact that Ted Kennedy was one of the Lions in Congress as they call him because the way Joe Biden put it - this was never about him or the Kennedy Family. It was about you and us. We the people healing this nation so we have universal healthcare free and a living minimum wage where people can go to school, pay their mortgage, feed their kids. Never, ever have to work again. And as NESARA is announced, all of this is in our midst and.....

TARA: And all about Bill Clinton. And we were told this back in....when he got in his 2nd term, the KOS told us that yes Bill Clinton will come out smelling like a rose regarding the fact that he signed NESARA into law on October 10th. And he also said something else in 1997, he also said the jury is out on him because the dark side is going to put pressure on him and the dark side did put pressure on him last year and he gave in. And what he did is, he orchestrated the murders of Dennis Kucinich's brother and sister. So he is going to have to pay the piper, the jury is out. He may end up having to go to the Hague and get executed with everybody else for doing that so love him more. And we are very grateful for the fact that he did play the role he did play which allowed NESARA to get into the slot of announcements. Had he not signed it into law on October 10th of the year 2000, this all would have been a moot point. So nonetheless, he's going to have to answer to the people for what he did so let's love him and give him the courage to do what he has to do.

RAMA: And in the last little while I was moving stuff around, I got a text message from the King. It was in the last hour or two and it has to do what you told us about. That YouTube video Marietta. Yes, that was Mickey. He was at his own funeral wearing that.....

TARA: Who's Mickey?

RAMA: Michael Jackson.

TARA: Michael was in the 2nd row I think.

RAMA: Wearing that fedora looking like an old man. That was him!

TARA: Yeah, they had him wearing a beard and they had him all camouflaged yet it was the real Michael Jackson attending his own funeral. Think about it everybody. Wow!

RAMA: It has to do with the total exposure of these 13 families that have to comply with the laws of love. It is the reality in which we are in and our ships counselors will be here to guide us, walk us, hold our hands, if we need it every step of the way.

End of Roundtable

## **Part 2 (Kauila & Mark)**

KAUILA: I did receive a message date from the KOS. It starts first of all, with a short piece of a personal communication that the King gave someone yesterday and the King asked me to include it at the beginning so here's what we got today.

[First are notes from a personal communication given to a member on 8/26...KOS asked for it to be included here]

"Now as you have understood, this coming period of revelation and consolidation of our multi-species, is always available for alteration. We are now much more certain about times and dates and ever changing cooperations among all of us.

"...We say that each one has particular draws for their work. Most critical for you, and all of those in the group, to move at guided moment-by-moment speed and precise following of inner guidance. We suggest setting aside schedules of ANY kind. Your own situation should be honored and respected...

"We say "niceties" of old are completely gone, and restrict all aspects of growth and progress to the full awakening. Put "nice" aside and go, be, do, what and where you are guided RIGHT NOW. If some are upset, so it is. Upsets are often conducive to growth."

[note: this first part was written in purple ink]

This is a much easier journey than many make of it. A balloon filled with the light gas, when released, simply

ascends. In your case, so it is same. We are assisting in many ways the "releasings" you need so ascension, that most natural of journeys, may occur.

As a mass, shall we say, the very last holding strings are removing, and we say, be joyfully in awe of what is to pass. Yet many are upward spiraling already, many more beyond to the higher realms. We have some that must be there first to be illustration for those to come. We all are illustrators AND illustrations. We all are painters AND the painting. The homebuilders and the home.

More & more find the living in higher realms is more that they wish for. And many are there more & more often. Today this one was in or at the place of golden star carpets, and golden shawl of stars, cascading over shoulders, magical-looking, and magical angelic sounding. Such is yours now.

Remember this is a planetary, yea, Universal process. This one place called Gaia/Vywamus this one piece is the Keystone of the new timeline. Remember this ascending is within. This ascending as you call it, calls upon change from outer to inner focus. Outer Events reflect inner change, inner being.

Those who desire change, see it. Those who desire the higher realms, are there now. Those who desire our help & assistance, see that now. This one has seen the Star-light craft appearing all over his home ocean and in the "stars" (you do not believe these are all REALLY stars, do you? Hah!!) They move and sparkle and beam their lights that reflect the sparkling in his being.

Waking up is fun to do.

[note: this next part was written in ocean blue ink]

Now some "practicalities" , shall we say!

How many of you we know operate, shall we say, "poorly" in this 3D world. How many find revulsion to the \$, euro, yen calculations & manipulation and so on. And go here go there borrow here, finagle there. No resonance with ANY of these that some see as "being a citizen of this world". You almost cannot function in it as you have tried b4. To those we say...WONDERFULLNES S!!

You are NOT here any more in that 3D type of sense. You follow the Pink Platinum Heart Guidance. You go to the "places" sometimes in body, mostly in higher dimensions that those who only see the 3D will not understand.

We remind you now...you are NOT "normal". Continue to BE in the not-normal way.

The double & triple & more multi-hat-wearing days are OVER. Go DO/be/feel as you are...Beings of the Higher.

Go and "waste" your time in the woods with the faeries; go "waste" your time by the rivers & the oceans with the devas and the dolphins; go "waste" your days on the ships and calling & watching the star craft and star beings to your side. And we say, such is no "waste" of anything. Your WAIST is a place for the lei of new creations, of the New Lemuria, of the New Timeline...the only time Line.

Dear ones, be in your joy, be in your Passion (however "useless" others view it) (Hah!!), be in your HEART with CAPITAL "H" [KOS here drew a picture of a heart]!

Blessings, Namaste, and ALOha to all!

King of Swords

MARIETTA: Wow. That explains. I have always been one who grew up in a family who were not awarded or praised what we were being, only what we could do. What we were doing rather than being. In the last few months, especially in this last month, I'm doing what you are saying and I'm having trouble judging that. You know, I'm not accomplishing anything. I mean, I'm not doing what I've always done. All the stuff that needs to be done. This is so interesting to watch and I'm okay with it. But, it's such a shift. Like you are saying, just being instead of doing. I'm experiencing that.

KAUILA: That is so wonderful. And I know that there is quite a few people that I know in my own personal circle that has done exactly the same thing. I know my own self, I was drawn to really just to drop.... I've been playing music at farmers markets and churches, and a couple of other different places. But I just, a couple of months ago it was time to drop it all. Just drop it all like a complete reset.

MARIETTA: What did you think about the thing about niceties? Doing what the world expects. Do you think that is what that is about?

KAUILA: No. I think each part is kind of, you know, in an individual way. What I'm seeing that is, you know,

there is a lot of things that people talk about and well, oh it would be nice for you to do this or it would be nice for you to do that. And there is nothing. Absolutely, this is not saying, stop being kind to people or anything like that. But a lot of these parts for example, I'm clearing out my place. I'm moving in probably about 2-3 weeks and I'm clearing stuff out. I could spend a lot of time saying oh it would be nice for so and so to have this. It would be nice for them to have this. And it's like, it would take me forever to get all that done. But part of it is setting aside that saying look, you are going to put all your things in one place. You are going to take them to the outdoor circle where they have a donation. You donate to them and then people can go and buy it. And I can say if anybody asks me and says I want something that you have. I'll say you can go to the outdoor circle and pay them a little bit and donate to their cause. But the niceties, a lot of times, the niceness is not what we are here for and it's really an artificial judgment of an action. And just one thing is that a lot of people for example, you know, it's not nice that I became an alcoholic many years ago. I had a problem with drinking and that doesn't look very nice, but that was the greatest thing that happened to me. Because it almost forced me to come to believe in something greater than myself which I had no concept of, no idea about. And of course, it's not nice to have that title, but it's there and a lot of these nice things that you get into, they just don't have any function so that's kind of my take on it.

MARIETTA: Okay. Thank you for that translation and report and explanation. Is there anything else you want to say before we see what Mark and Beth have to say.

KAUILA: Well I just thank the KOS for sending the words. I hope I wrote them down okay.

MARIETTA: Of course you wrote them down okay.

MARK: I would like to read something that Ashtar asked me to read. This has to do with a special 9-9-9 experiment and basically the Galactic Councils want to try this experiment and they want all of the people on here and on Galactic Roundtable because they are so well prepared and they've been at this for awhile. They would like for them to participate by actually writing their visions of post NESARA. And asking questions about things they want them, yet not repeating anything that we're talking about now in terms about what precedes NESARA which we know the arrests, NESARA's announcement and decloakings are the key elements that will bring NESARA on and then that includes within 7-10 days, landings. So what they want to do is to try to see if we can pretend that we are Galactic representatives talking to, directly to the Galactic Counselors and having them answer your question. And also, deliver a special message on that day. We're going to be out-of-town. We're going to be up in Colorado on 9-9-9 doing a special program and Beth is flying in and we're going to drive up and do that. So this is kind of new thing and hard to understand, so let me give you a few more details. In preparation for this meeting, they have asked us to send questions from future council representatives for Terra Nova. Most of you have been following Faction 3 Intel News for many years and have a good background and understanding of the issues now coming to fruition in arrests. NESARA announcements and revelations of Galactic presence in our skies and affairs for more than 62 years which has all been covered up by our government. And they have to now be publicly disclosed like the 2 Motherships decloaking for 2 hours in China.

Well we're going to have much more of that. Ashtar, St. Germain, Metatron, the KOS, Mother Sekhmet all invite you to assume these things have happened and now after you mentally reviewed these background issues, they would like to hear your visions and questions about the new era. Things you would like to have or questions you want answered. And so if you could put your focus on there. The questions should deal with the new reality phase of our planetary ascension existence as we move over the next couple of years to full planetary ascension. And as is said, we will have world wide decloakings and landing waves in 7-10 days after the announcements. And abundance for all will begin to be accorded within 72 hours of Lady Master Nada's announcement on TV and that will progress in a sequence around the planet through the numbered programs and countries. Again, you should fashion your questions and report your visions at a highest priority consideration as if all of these have been accomplished. Well, what does that mean? That includes new healing centers and physical, mental, and consciousness restoration availability for all who ask. Since most current work will be locally restructured and/or eliminated by locally available Replicators and clean air, water, food will be the right of all. There will be no need for the current large freighters, air transports, trains, busses as they will all be replaced by antigravity platforms and other vehicles that are non polluting and silent requiring no roads. So all of that can be pulled up. All of that can be removed so we have a pristine planet again. Everyone will have the abundance to focus on their most cherished ways of contributing to planetary enlistment. New celebrated educational methods will assist us in quickly upgrading our skills in whatever areas of concentration we feel most passionately attracted to, to participate or to originate.

Everyone will have one or two Galactic Advisors or Mentors arriving when the ships land so everybody will be having a personal counselor or even two. They will be fully knowledgeable about your complete on and off planet range of abilities, interests and soul accomplishments as well as your Twin Flames' identities and

where they are located. You will feel the love they have for you and you will soon see that they are only interested in helping you up your skills and increase your joy as quickly as you choose. Since everyone will have funds, it will not be about working to feed yourself, your family or anything else. You will have that. Most of those on the trillions of ships that are now present are your future higher aspects, your future selves and also in most cases, your Twin Flames are on those ships as well. And also ancient families who are proof you have succeeded. In other words, they come from our future as Mother Sekhmet says all the time and they are the proof that you did succeed. That the ascension took place and that you are a part of it or they wouldn't be here and be able to come here now. So these reunions will be most positively energetic in preparing ALL who choose for full planetary ascension remembrances. Now that is a key phrase. Remembrances because you have done this before. You have been ascended before. Everyone here has ascended at least 3 times. Everyone was seeded here a very long time ago and all have homes elsewhere in this and in other dimensions, planets, stars, galaxies, etc. No one who is here is any greater or less than any other and ALL have an equal or equivalent divine pathway which they will choose and in fact, some have chosen. Some have remembered more of who they are and ALL may have those remembrance experiences. And that's another part of what the mentors and advisors are for is to help everyone learn who they really are and what they came to do and then help them to upgrade their mission to do that. We all planned out our missions before coming into this reality experience. Our higher selves have been refining all our plans to achieve maximum success and maximum joy. So that's been going on long before we ever came here. So those interested in sharing your visions of the new consensus reality or asking questions about that process, here's your chance. The Galactic Council members will answer your questions and we will share those answers on this special 9-9-9 conference call which Mark and Beth will be doing from Colorado. We will also be bringing through the Galactics who will be meeting on the ships to answer directly to the questions and also hearing their direct comments that they make because they are going to deliver new information never heard before on this conference call. Because we are now in a new place so one way you can look at this, is a virtual reality rehearsal for a coming model of Earth/Galactic interactions. Future Galactic/Earth Council meetings will be modeled of what comes from this experimental council meeting. So we are asking you to take this seriously as if you were indeed speaking for many here directly to the Galactic Counselors. You can send any of your questions or visions to [questions4markh@yahoo.com](mailto:questions4markh@yahoo.com). There have been many actions moving us rapidly towards our new consensus reality and many, many famous ones who you've only thought are remote Gods or Goddesses are arriving and some of them are already here aboard the ships in physical form and they will continue to arrive in our atmosphere in the coming days. And we will be involved in mentoring, they will be involved in mentoring much of what occurs. It will be quite exciting. Some of them are going to be helping those in the massive programs to make wise decisions. To see to it that every place on this planet has the infrastructure it needs and all the facilities it needs to equalize a basic standard of life for everyone so then they can turn their attention to the spiritual ascension process. So thank you for letting me share that. Beth do you want to come on now?

[Beth was unable to get a good connection]

MARK: I received a question today and I thought maybe I would give you the answer. This is a question for me just like we are talking about and the person said, I thought 2009 was the year of great changes. Is it going to be 2009 or is it going to be 2010 or when is it going to be? And that was due to a reading, a channeling that was published today by a very popular channeler. Anyway, when we read these things, we have to understand that this is a process that we are in and I can tell you that the beginning is now underway. There are many steps in this process. However, we have reported from Faction 3 sources that arrests, Galactic presence disclosure and for that see the latest China videos of 2 motherships on [www.welcomethelight.com](http://www.welcomethelight.com) and it has the video on there as well.

The announcement of NESARA will happen quickly and all the rest will be fully and publicly seen and reported and welcomed. More such appearances in our skies are expected in the next few days. We got that from Ashtar today and it will quickly escalate around the world and will not be covered up. Then the planned progressive steps will be enacted and implemented worldwide. Nothing can stop this process! Some remote areas will take longer than others, but all will be accomplished within 10-15 months after announcements. The U.S., U.K., Canada and Australia will be the first to receive abundance distributions. Huge pools of funds will provide for all needed infrastructures in even the most background countries and people from those areas will be asked to be a part of those projects. Eric Holder has appointed a special prosecutor to investigate the Sibel Edmonds' 6 hours of testimony and all the names revealed during that testimony. Typists are now working 24/7 taking depositions from those named and we expect these will be referred to the World Court for war crime trials because they involve 9/11 and international crimes. Patrick Fitzgerald, as you all know, has had secret grand jury meetings and issuing approximately 100,000 indictments over the last 4 years. These are sealed at the present moment and about to be unsealed.

All of this centers around 9/11 and the evidence is overwhelming. So I hope there is people out there reading contrary things, or seem to be contrary, understand it just depends on what part of this process you are talking about. The ones that I just outlined there are the ones most people are interested in right now. They know that after these happen, that there will be a process of cleaning up the environment and that will take about 30 days only. And then of course, all the distributions will take place, and everything else that is scheduled as a part of NESARA which is a whole new infrastructure which also will include new governments in most places. Where representatives, governments, and also this new consensus reality that Ashtar and the Galactic Counselors are wanting to talk to you more about and have a practice rehearsal so the people could see how that would actually work. So these are the things involved. Thank you for letting me share that.

MARIETTA: Thank you Mark. You know as we began Stargate Roundtable many years ago, we were told we were really practicing a new way of being in the world without a dictator at the head of the table. Practicing how we might be governing ourselves in the future by learning to do roundtable where everyone participates with their talents and their abilities. Now this just sounds like a natural progression to the next step. Sometimes we have to take things in sequential things because that's how we've been "trained" in our system of doing things in the sequential way. And maybe it doesn't happen to happen that way, but in order to get our rational minds to accept it, it seems that it is a way that we can handle it [rest was inaudible].

MARK: We will be having a conference call on September 1st again which is next Tuesday. So we will be talking about all this stuff and more. Much more because there has been many other things going on that we don't have time to talk about right now and that will be happening over this next several days. There is a sequential flow. There are things happening every single day. I can't tell you about that right now, but things are happening every single day to move all of this forward. And I can tell you that gateways have opened up and people are coming from other places no one here has every heard about to be here for this final, shall we say, BIG SHOW. And that's where trillions of ships decloak and then will land in 7-10 days, begin to land sequentially in waves around the planet. So this is a very, very big event. And great ones from all over the universe and beyond are coming in here to be a part of this. So when we say, this is all happening now. If you saw even a few of these things. There are so many council meetings going on right now aboard the ships, it would make your head swim because it is a very, very advanced stage that we are in right now. We know the key thing is the arrests so what is happening to push this over into Lady Master Nada's hands is almost like the final tip of this. And as said, Ashtar did say there would be more decloakings in the next few days so we'll look for all of that and then we'll share more when we can.

### **Part 3 (Mother Sekhmet)**

[Invocation of Mother Sekhmet]

TARA: We ask at this time for all of the four Musketeers to come, Mother, Michael, Maitreyia and Metatron. And that we are very grateful for the roles that these four Musketeers right now in intervening in our civilization's development so that we can get on the new no timeline of Galactic universality in Oneness. May every soul be touched by the angels of High, High Magic and may that expand their wisdom, their understanding and their capacity for greater love. And to ask then, that we have that come in the form of understanding that we can expect that greater love and then commission ourselves to teach that love to a greater community of light that we live in. May we all become Ambassadors of Peace. Now is the time for Love. Greetings Mother, thank you for coming.

MS: Greetings wondrous beings of incredible light and love, peace and joy. It is in this moment we can truly say, now is the time for peace. And what is unfolding indeed on your planet, we have arrived as you can see to all the messages and the like the man said, it will be the most auspicious as we sit with you. We are speaking about the one that just spoke for another time, another place. He was \_\_\_\_\_ to hold that energy. Grandson of Ukbar the Great. It is at this time, we would just say, all of the stories of legends about the wondrous magic that has occurred on your beloved Terra Nova is coming to pass where we have the great councils once again with Agartha and Shamballah joined as ONE. And no more division about who's who in the zoo and who wears the crown because we all wear crowns.

We are all Kings and Queens with our sovereignty intact. Already born with it. Cannot delete it. It is simply the game that has been played here with like Morpheus said, how do you define real? What is real? What is that place in the sense, all of what you have been taught, you must unlearn. In that way, it is like what Master Yoda said, you must unlearn all of what has been fed to you. Those lies that represent a matrix and go wit the energies of what you know as the Force within you as you call upon that energy. The guidance of that which is all around you. It is there. All you got to do is ask and it is instantly in your face because the

energies are that intense on the planet. As you ask for it, therefore it is and so it is. So be it!

What has been occurring here on many different levels is the great \_\_\_ of the understanding that we are here. Not going anywhere, but those GOP in exile and the 13 families are going somewhere. It is back to their homeland called Dracos where first the Hague, then Dracos where they will have to deal with what they have done for the last 26,826 years. Now is the time for peace. As that is declared, we can interact with you and it is already occurring with the very fact that some of our craft have been seen over your oriental cities. Not going to stop. Only increasing in magnitude. Many more Motherships are going to be seen. It is not about Independence Day, it is about peace. It is how we can come and add to the conversation of how we can heal this story. One of the first things that are coming about is like what the Commander said, the arrests that have to do with reality in which we are looking at the skyline of Manhattan at the moment on this computer where we are and Ground Zero. Got to answer the question. What occurred the morning of 9/11 when NESARA was supposed to be announced? And instead we got a pack of lies like George Galloway said. And time to talk turkey about that. Nothing else. It is the fact that Osama Bin Laden, the Islamic World did not do 9/11, your own government did it. This government within this country and they will be held accountable for their war crimes now. It is already coming to pass. This one, Eric Holder doing what he has to do in grace, the beauty, the wisdom of appointing a special prosecutor to deal with what has occurred. The atrocities of innocent people being mind controlled and taken to the place to where you might say, they are trying to remove soul matrix and they cannot remove soul matrix from any life force. It is the express permission of Creator Source. And we answer directly with that energy of Source. That is where the energies come from. SUN/SON energy.

That is what this is about. We are creator sons and daughters that came here in the Grand Experiment to create peace within diversity. All the colors of the rainbow in peace and joy, love, truth, wisdom, freedom, justice. Has to do with what this first few Founding Fathers put together when you had Moorish Nation. And it is about what the Prophet Nobel Drew Ali brought to this country. To the understanding that the original people here came from Mu and this is where it all began. Coming full circle where Mu the Motherland all coming back to that place of balance and joy and peace. As if we can share the wisdom that was brought by Merc and Lady of the Sun and all the Kumaras where we can come together and pass the talking stick and share a song, tell our stories and open our hearts without judgment. Without any form of ridicule or any kind of animosity whether we are the 4 legged, or the finny friends or the winged ones. Or the ones that crawl or the ones that walk on two legs. And sometimes we walk on 2 legs and sometimes we walk on 4. It matters not. We all have a song and a story to tell and we will bring it forth tout suite. What is unfolding right now first and foremost as we have said. The arrests and as that is unfolding right now, the very fact that many of your nations are walking with eyes in the sky of our craft to bring forth the truth that we are here and they cannot hide it from you any longer. Like the K-Man said, the lights in the sky will not go away, they will increase. And it will only implode upon your planet in the sense of quiet Tsunami, ecstatic joy and orgasmic love. It is the way of our world. In the understanding of how we bring peace so that we can share with you in that way so that there is that interaction. Yes, there shall be one or two ship counselors to meet with everyone so that we are all on the same page and we can do this very quickly. And how this is done, the beginning stage already brought forth in the very fact, universal healthcare will be brought forth now.

This is why this man, Senator Ted Kennedy, his life mission was to bring forth universal healthcare, a living wage, a decent wage where the working middle class, not the working poor. But the people where everything, there is enough for all and we can pay it forward to everyone no matter who we are. Whether we are the tool and die shop foreman or the mechanic working for the tow truck driver.

TARA: In other words, no more poverty and no more working poor ever again.

MS: No. We are all Kings and Queens.

TARA: You've always told us Mother, that the worst sin that anyone could commit on the way of a soul on their way home, is to create poverty. So that means we have to end poverty and everyone deserves the right to their life and their liberty and their pursuit of happiness and the right to property.

MS: Yes. It is that understanding that the true sovereignty of who you are. God beings, God men, God women, with the peace and the love that you have your gifts, your abilities to instantly manifest what you need to do your mission is being brought forth. And what we can say, already being made manifest in the physical and as we approach this date, 9-9-9, you are going to see many more miraculous things unfold.

Could be very interesting in the next few days, next few moments where we could say, some of our craft may be showing over the District and letting everybody know in that rotunda building that they had better be talking about the truth, freedom, justice and peace or the people, We the People, not the agenda of the so-called removable elite. K street, C street, all of it being gone. No more. This is why these events are

happening now as our friend Edward Cayce in the form of Mr. David Wilcock talking about the truth. Forty years ago as the experiments, August 13, 14, 15, 16, 17 coming full circle where we are turning it around right now. No accidents. Monday a craft being seen over China. It is a culmination of taking that energy of what was used to open up worm holes to travel in time and space and change the timelines. Now that energy coming full circle where we can use it for the betterment of this planet and mankind, womankind. All kinds of folks whether we walk on 4 legs, or we fly, or we swim, or we beam in or beam out. It matters not. We are all ONE.

In the sense, humanity in all of its forms of diversity within the framework of peace and this is coming to pass right now. It is so magnificent to behold and we have to say with great reverence, we do wish to honor the legacy of Senator Kennedy with what he brought forth to this country to create the atmosphere where we can have what we are speaking about. Universal healthcare and the freedom to be able. Whatever it may be. Where you never have to pay a single dime for what you need to take care of these Temples of the Living God. And as that comes to pass, it is so incredible what can achieve in your midst where truly like what was said, in Zeitgeist Addendum, Climatica, Venus Project. The stories of the circular domed cities not just a fairy tale. For real. What Jacque Fresco and his wife putting together is for real and it is already being made manifest. You only need 7 people to run the country as the Venus Project is up and running. Can you imagine that? Seven people just running systems. Never have to play with these councils and state departments and all the crap that goes on.

TARA: And all the different ways of life that have just been creating busy work instead of being able to do the mission for everyone.

MS: That's right. As you are all freed up and you never have to do that again. It is not about the idea and many questions have come up. Well what is going to happen when people don't work? What happens to our reality? How does the streets get clean? How do I take care of myself? How do my children get to school? How do I feed myself? How do I clothe myself? How do I care for my car, my mortgage?

TARA: With universal free energy where nobody has to pay for anything anymore either. And we have a feedback system and it's within our hearts where we don't really participate in anything that isn't based in love.

MS: That's right.

TARA: It's a natural event and those who have decided not to participate in love, leave the planet.

MS: Correct. They go back to their home worlds where they will have to deal with their karma/dharma as they see fit according to their own life stream. It is just like the movie, Defending Your Life, and you're going to have to deal with that one because you set it up from the very beginning. And it is not the lies that were said to you by the mainstream media, or the matrix, or what you were taught through the 40s, 50s, 60s to now. All of it's based on a fake agenda. The matrix being dismantled now. This is why these events of what Commander Mark, Kauila, Beth and others speak of every single minute and every single day. What we talk about endlessly where we can sit with people. We walked into a Wal-Mart today just doing some business and we talked to a lady and we show her a form of ID. And she said, my-my what are you doing in these parts? Haven't seen that kind of ID ever. We said, we are here. We went to visit the Moorish Flag and we didn't get to see it.

TARA: At the Smithsonian.

MS: Yes and she said, good thing because if you ask the wrong questions, then they take you to the wrong place because of the fact all the [inaudible] based on fake stories. No weapons of mass destructive under there, maybe over here. Such a sham. We are ashamed of the fact that incident even occurred on your TVs.

TARA: You know Keith Olbermann said those very words tonight. He said, I am ashamed so many times over with what has been going on here and he was talking to Maxine Waters. I mean, and she responded, she said, well I'm concerned because the extremists and the desperate behaviors and the responses that may come from people who are not accepting their desperate ways. That's a concern of mine. In terms of we don't want to start another kind of revolution that's not based in peace.

MS: No. And we talked with this lady and all of a sudden at the counter at Wal-Mart. We say, have you heard about something called NESARA. And she said yeah, we want to see that manifest. And we say, already complete. She said, praise Yah- thank you.

TARA: And then you talked about all the criminals now will be going to the Hague and she said it again and the people in line were clapping. Everybody was listening and people in line started clapping and this is like 99% black people in that neighborhood where we were.

MS: Yes. That's right. Everybody waking up. They all know Osama Bin Laden and the Islamic World did not do 9/11. Was done by our own government.

TARA: These people all knew about that. They knew about the Moors and they all knew that the black people created this country under the Moorish Flag. They knew. We were kind of shocked to be honest with you because we had no idea of how much awareness there is in the black communities.

MS: Yes. And we have to say, now is the time for peace so that we can come and sit with you and not talk through this funny voice through this body. So we can sit with you with our tails so you can hug us, we can love you and you can love us. And we can have a great big party.

TARA: Just don't pull your tail right Mother?

MS: Not too hard, thank you very much.

TARA: Oh, I was going to say there was one more comment here.

MS: Oh yes. USB Bank bit the dust today.

TARA: And so did FICA.

MS: What is it? Member FDIC. Yes. And it was interesting. MPR and also on Amy Goodman [www.democracynow.org](http://www.democracynow.org). The CEO of USB Bank caught by the short and curlies. Recently he was playing golf with Mr. Obama. And we can say, Mr. CEO caught with his pants down, billions being.....

TARA: Inappropriately distributed to inappropriate people.

MS: Yes. Got to stop all the terrorist acts against We the People.

TARA: Oh Mother, also on MPR this afternoon, they were going over the statistics, you know, that the whole underbelly what isn't being talked about at all about Katrina. That is coming up this Saturday, the 4th Anniversary. They were giving statistics....

MS: 65,000 people to this day have not returned to their homes in New Orleans. What homes do they have to return to except a pile of mold and lies? Based upon George Bush/Dick Chaney genocide.

TARA: And that's just one statistic. I had never heard those kinds of statistics before. So again, the Gag Order has been lifted and everybody's talking.

MS: Now is the time for peace. End Part 3 of 4.

#### **Part 4 (Q&As)**

MARIETTA: Am I correct in my understanding that Senator Kennedy left his body now so he could join us with his brothers and return in person with them for the announcements? Or is the real uncle Teddy still alive and a clone or hologram put to rest in his place?

MS: The real Teddy Kennedy alive and well just like Michael Jackson and they will be coming forth to tell their stories about how they were targeted for speaking the truth.

TARA: Yeah. And we kind of explained that earlier when on the 20th of January, both Teddy Kennedy and Senator Robert Kennedy, the real ones.

MS: Robert Byrd.

TARA: I'm sorry. Robert Byrd were put in a witness protection program and clones of themselves were put in their place because the light side knew that the dark side was going to pull the plug that day. And they did on the luncheon. And Mother you put angels in the clone bodies and basically brought them back to life so they could play out this role while the real ones are still safe and sound. And one more question, I forgot about it. There was a lady that asked this question earlier this week. I thought that Sibel Edmonds in March had already disclosed her whole story and it's true, yet it wasn't done the same way that it was done 3 weeks ago. It was done to a secret meeting of good people in our Congress and that's not the same as what was done 3 weeks ago. Where it was done in a public formal basis before members of Congress. That's a different kind of disclosure and the people got it reported on the main media. That's a whole different thing. Just so that person understands the answer to the question. There is no contradictions ever, it is just understanding these layers. Okay.

MARIETTA: Well there is a lot of questions about Kennedy and some of them want to know, Was his brain cancer natural or was that induced? And if it was induced, did he know that? Was he aware of how he was attacked at the Inaugural Luncheon?

MS: We will just say that Senator Ted called Rama up in 2006 and said, they gave me cancer and I may or may not get to be here to see NESARA announced. Still and yet, we will tell the truth when the time is right.

MARIETTA: Well, we thank you for all of that. I think that will put a lot of questions to rest for a lot of people. The other thing that is pretty consistent in the questions that I am receiving. I'm going to read this one and it stands for a lot of people that are wondering how they are going to handle these things with their family. This person says, my family and most of the people I know are very loving and good solid people. Though I am limited to how much of what I personally believe can be discussed with them. I also understand that people will be given much information informing of world events. Will the move to a higher dimension be clear also? Otherwise they have no real choice. No one can choose what they are not aware of. So it is a question of how are they going to be made aware of this so they can make the choice and how much are we going to discuss this. I think this goes back to things we've talked about. We know that some of us, our jobs are to help people integrate all of these energies. So can you talk a little bit about that because there is a lot of concern among a lot of people about how about my family. What's going to happen here?

MS: We can say as NESARA is announced and the arrests occur. First arrests occur and folks see the understanding already this going on many different levels. Already you see. Senator from the Carolinas saying that he wants to stay on and it's okay. This Senator saying he will not leave, yet the Lieutenant Governor....

TARA: Is saying as you would not leave, it is going to force the members of Congress in the State level to impeach you. And that, you know, you're going to be putting the whole state through a lot of headaches and we are going to hold you accountable for doing that on top of everything.

MS: And all of it being exposed. The fact C Street, the Christian Mafia, all of these stories about how these folks of Congress have been murderers, rapists, pedophiles, thieves, worse. And we don't want to go into itineraries, we will just say, already like Ashtar has talked about - the sexgate unfolding. Already talking about Senator Larry Venter being impeached, going out with the hookers. And we have to say, as people see these events unfolding right now, the corruption goes so deep like we have said, maybe when all is done, there will be maybe 60 good members of Congress intact. Maybe a hundred, don't know what to say, out of 535/545 people.

TARA: 535.

MS: Have to just say, maybe 160 might be left.

TARA: You mean you are going up a whole hundred?

MS: Don't know. It is up to.....

TARA: In other words, some of them won't be taken out, but they have to go to jail.

MS: Yes. Have to answer for their crimes.

TARA: Also the King has said that some of them will not get any money and will be stripped of all their rights to hold office or be employed and they'll probably be sent out of the country.

MS: In exile.

TARA: In exile and then they are going to have to fend for themselves. Even though they are not in jail, that can be pretty tough stuff.

MS: And it is not that we are creating that atmosphere, they are creating their own karma/dharma by the light stream they walked into. And in an instant, they can praise, respect, and love the feelings that come up and heal it in that instant. And we are saying, as these things are unfolding, as the people, We the People, [inaudible]. As NESARA is announced, there will be 30 hours of instructions, education on your TVs of how the restructuring of every sector of your society is brought into balance and manifestation.

So that what you were taught about basic civics/economics, how the structure of the legislative, executive and judicial branches are based on the truth, freedom, peace, justice and love are brought forth in that sense. So that all these things are simultaneously in tandem with each other as post NESARA, then it creates the atmosphere for us. The Galactics to come and land and it happens all simultaneously. Then as Commander Mark has said, there will be one or two ship counselors that may show up dressed like you and me. Everyday Joes. Might look like the mechanic down the street. Might look like the dishwasher at first. Might look like a guy serving you at Jack in the Box. Don't know.

We're just saying, it will be in that way and it will not be you are overwhelmed or bowled over by a Galactic presence. Everybody will be contacted in an extremely loving and gentle way. Where we can talk with all of

each other and have a reality check where we can say to each other, we got some news for you, you might want to \_\_\_ about that you are not going to hear from Rush or Shantanaly or Bill Oreilly or the rest of the neocons. We've got some really got some good news for you. Tune into this particular station at this particular time and you will hear this wonderful news on Monday as we heard the news about the ships showing up on China.

We heard on CBS News, they were talking about stories of people interacting with the ships and yes they had stories about people who had been abducted. Stories about how Dr. John Mac, the Scientist counselor who shared in a movie called Touch about how we have been lied to about our Galactic friends. CBS talking about this mid day. Maybe 2:00/3:00 in the afternoon. Maybe CBS, a major right wing corporation, they also talked about how the good guys have interacted with many of our Galactic friends. People who were every day Joes and they had experiences - wonderful experiences of meeting us and having wonderful ecstatic joy, not negative experiences of being put on a table and tortured and abused. But stories about love. This is what it is about. We hope we answered that Marietta Robert.

MARIETTA: We thank you and I think it will put a lot of people's minds at ease because there is a lot of concern about and especially in our families where we have a lot of very fundamentalists. You know we know it's going to be a great shock to them just to see the ships as well as to accept any of the rest of this. Thank you for helping us understand this.

MS: Yes. We showed a Russian waitress just yesterday, the ships over China and she was so overjoyed. She said, I've got goose bumps from head to toe. This is so exciting. I'm going to tell my friends back in Russia.

TARA: Yes and Rama told her to go to \_\_\_\_\_.ru because they are talking about it right there in their own Russian newspaper.

MS: Yes. You go and click on technology section and you read about UFO stories every single day.

TARA: Yes. Our friend here in Baltimore where we were took us to a Lebanese restaurant and there we ..... [got cut off]

MARIETTA: This is about some of the Twin Flames. This person says, my husband is reluctant to allow me or us to meet our Twin Flames. I'm apparently doing a poor job of explaining how this will be a good thing for most of us. He is a major 3D case and I really want to meet my Twin Flame, but I understand that if I am married, my husband has to be in agreement. He fears being controlled or losing me to someone else. I need your help because I need some advice. I can't be the only couple with this issue or concern.

MS: We will just say that as folks are going through that kind of experience, it might be that the feminine aspect going on here waking up exponentially taking a quantum leap in the relationship. And as the husband, may or may not get on the stick, she may have to say, hasta la vista baby. And that is that reality and maybe it is that the soul mate is in that relationship and not really a Twin Flame. In that understanding, you came together to hold an energy in that circle cycle. We sometimes have soul mates in soul groups to get the mission together and then we are here and at that level, you are brought to the brink of that awakening ascension point. And then sometimes, it gets a little touch and go. A little sparsely and hairy around the edges where uncomfortable stuff comes up and you are going to have to deal with it and heal it. And you do it in a loving, gentle magnificent way. Praise, respect, thank and love the feelings that come up. And as that [inaudible] sometimes tends to wear thin and if it is at that point, seems like you watch the drowning man go down. One, two, three. Oh well, you might have to just say, like we said, hasta la vista baby and you will meet your Twin Flame and he will walk off the ships. And we are not trying to be harsh, we are just saying it like it is.

MARIETTA: Well thank you. You kind of anticipated a couple other questions that people are still confused about what is soul mates and what is Twin Flames and what has precedent over the other. What should they be doing? And is the soul mate just physical and the Twin Flame can also be other dimensional. I think those are some of the questions to sum up the things I have received.

MS: We would say soul mates share the same mission and at the same time, Twin Flames are two halves of the one soul. And as that comes together, oh incredible magic unfolds. Sparks.

TARA: And a soul mate can pick up the pencil for being the Twin Flame. That's very important. In other words, there is more than one being that can pick up that role and meet that soul's Twin Flame requirement, you might say. Where they learn about their soul group together as partners and then when they can connect with a higher aspect of their own soul, they can link up and become Twin Flames.

MS: Yes.

MARIETTA: Okay. This last question I have that has been sent in is about, Can the planet support the weight of trillions of spacecraft and beings without affecting Mother Earth in any way?

MS: Yes. The planet can support it. Gaia/Vywamus are incredibly resilient and have been here so many eons of time. They only have an estimation of how long this has been in existence and we would say 450 billion years. And at the same time, it is like how do you describe the amounts of cash baksheesh that is about to be released from the Lavender Lad's coffers. The mines of King Solomon's 40 zeros after that. That is what is going to be brought forth to save this planet. All of you. I hope that analogy makes it so to help you understand.

MARIETTA: It does. I mean when I saw this about the ships, they are not necessarily a weight that is going to be..... They are concerned about the extra weight coming into the planet. There necessarily doesn't have to be any weight does there?

MS: They are merkaba vehicles. They hold no weight. They are weightless anti-gravity.

TARA: When they come in, they lighten up the karma that's already here. Karma holds weight because it is bound to gravity and the science of karmic debt in our schools because they teach us that we are all gravity bound. None of us are gravity bound. We are all based in anti-gravity. We are just learning how to become aware of the anatomy of our higher self to access the anti-gravity techniques that make up weightless.

MS: That's why there are videos by these Spanish scientists. Hymie Musont from Mexico where he has shown videos of people who can fly and they hold nothing except their bodies up in the sky. There is no technology. No jet packs, no funny wires, they can fly whenever they want to. Just like in the TV movie series Heroes. The Senator and his brother, they can fly.

TARA: And the way you can fly has to do with that card in the tarot. It is a zero card and it is called the fool. And the fool knows when he jumps off the cliff, he can fly.

MS: Just like Babaji talks about in the stories. Come walk with me off this cliff. Sit and meditate with the rest of us. Don't worry about the chasm below that is a half a mile, two miles down. Just don't look down. Look me in the eye and love it more.

TARA: Well Mother, isn't that what Rama does every time he goes up in the ship?

MS: Yes.

TARA: If he had an expression of fear while he was going up in the beam, it would cause him to go bye-bye.

MS: Bacon.

TARA: Fearlessness. That's why it was a famous saying, FDR said that the only thing to fear is fear itself.

MS: Yes.

BIGWILL: My question is to Mother. Mother, you mention about counselors coming down to counsel us and to give us guidance. My question is, if these beings are coming in from different parts of the galaxy, will they be appearing as humanoids, or will they be other beings that we're not used to?

MS: They will begin at first to appear very much like you and me except that you might see an extra added sparkle in their eye like those magical leprechauns or menehunes or the wonderful waitress at the restaurant. She just looks you in the eye and she might just say, there is more to this story than you and I can talk about here. Let's go meet over in the park when I get done at work and I'll share with you, more of what you need to know. And that will be how it is done. And it might be also, you get a flat tire and the mechanic shows up and he fixes your flat or your distributor cap goes for some funny reason and he shows up and fixes it. And you and him lock eyes and you might just say, did you hear the news of a craft being seen over China? And he might say, funny you should mention that. I got a story for you when I get off work, I'll share that story. Meet me here. Here's my phone number. And it will happen like that, in that way, or other magical serendipity type events.

FRAN: On the date of September 9th, we're having a conference call and my question is, can we invite people to listen in on this call and give them the phone number and how will they feel about this type of information? Of all the calls that I've listened to, tonight was kind of like the most informative thing I've heard for a long time. It made me feel better. Just a couple of weeks ago, I asked Rama to say a prayer for me because there was all kinds of bad things that are happening to me and they are still happening. Nothing has changed, but I keep telling people about things and I went through a scenario the other day with a friend of mine. As soon as I got onto the religious aspect of the churches and that, I lost him. I don't even know if he is going to be my friend anymore. I think I lost him. So that is why I'm asking if we can invite people and how will they feel

listening into a call like this.

MS: We would just say.....

TARA: Can we ask who's asking? I didn't get your name Commander.

FRAN: This is Fran out of Florida. You said a prayer for me maybe a week or two ago on a Friday night, if you remember.

TARA: Okay, can you explain again. We didn't understand what aspect of the religious part that made you feel you didn't want to be a friend with Rama anymore. I didn't understand that.

FRAN: No, no, no. I started explaining things to him [his friend] about how things will change, but I really didn't give him a lot of detail. They are going to change in ways that you will never, ever believe, but everything will be good. I was telling him that arrests would have to happen and the banks would shut down and there would be a reformation act that would be brought to us. I started to talk to him about the religious aspect of it, it is not the way the Christian religion, the Catholic church has always taught us. That is where I lost him. I totally lost him. I think I will probably lose my family that way. In that area because they are going to think that I'm off my rocker.

TARA: Oh in other words, you were talking with somebody else, you weren't talking with Rama about it, you were talking to somebody else.

FRAN: I was talking to my friend about this. I talked to my Mother about it. They looked at me like I am completely out of space here. I don't know. It's like I'm leery to ask someone to listen in on this, but I listen in almost religiously. I don't listen in on the call, I listen to your recordings. I'm really into this. Back in February, I dropped over for 2 ½ hours and they put a fibrillator in my heart and I was more or less dead for a couple of hours and now I'm alive again. But for those 2 hours, I kept getting these little visions in me. One of them was, I was in outer space. I'm like, OMG what does this all mean? I wanted to clarify it. So it is kind of confusing.

MS: We will just say what is happening Sir, is that you are waking up exponentially and it is like what Reverend Al Sharpton said about Michael Jackson. It is not that you are different, it is the fact you are living in a world that is very different and you're going to have to understand and your family is going to have to understand everything that has been taught to you wasn't truly all the pieces of this story.

TARA: In between now and 9-9-9, the main media is going to be biting off big chunks of the lies and telling the truth about it every single day. And don't underestimate the change in main media between now and then and the people that you thought were going to really want to not be your friends anymore. They are going to be already inundated by the main media and the truth on the main media and it's going to be a surprise and they are going to be making a lot of, you might say, reactions and/or responses in the next [inaudible] that is really going to be traumatic to them. Yet, it won't be coming at you so much because the main media is going to be picking up the slack and they are going to be hearing it on the main media like they've been thinking you've got 2 heads. Now they are going to either think the main media has got 2 heads or they are going to have to think about this and accept a little more about this.

MS: Yes. And one of the maybe the easy way for them to get it in a very quick exponential way, is to watch the 3 movies called the Matrix.

TARA: Some people don't know how to understand any of that. That's why they didn't watch it in the first place. Yet, there are things like on public broadcasting every Friday night like Bill Moyer. He is very mainstream, yet he brings something to the table that people who are mainstream maybe need something between Mother a Lion person and the regular news and he can be bridging those gaps so as people go to public broadcasting and listen to a little bit of that. There are a couple of those that come on that could be very helpful.

MS: Yes.

TARA: And again main media. MSNBC is main media.

MS: Rachel Maddows, Keith Olbermann, [inaudible].

FRAN: I watch that all the time.

MARIETTA: It is like Mother has always said. My feeling is that you will know. Just follow your heart whether you should invite someone to the call. When people talk to me about this and I get this pretty regularly, being the Moderator here. If you have a question about it, just go inside and listen to your heart. You will know whether it is appropriate or not. I don't invite everybody I know to the call because maybe it is

not time yet. They might be disruptive or whatever. But I think if you just listen to your heart, that is what Mother tells us. Think with your heart and not your head, I'm feeling you will know.

Thank you Mother for all your comments tonight and helping us understand this transitional period. We thank Mark and Kauila and Beth for all of their insights there and especially all of you on the call. Your contributions of your energy and your desire to learn and to know is what makes this something for all of us. And just a waking up time. So we are grateful that you participate with us.
