

## **MOTHER SEKHMET TELECALL dated 9/3/09 -**

### **Part 1 (Roundtable)**

RAMA: OMG. It is moving ever forward with accountability with the fact that now is the time for peace. And thank Carolyn for brother sun/sister moon as these energies gather and we are stepping into the lag wall where jaguar medicine man walks with us on every level and that place where the [inaudible] and that knowable place is pretty awesome. In the last couple of days, the accountability is coming ever forward. In the last couple of days, I have heard the energies being cranked up to the level in which where I'll just say that what is being said is that it is time for the war criminals to be brought to justice and..

TARA: Did you tell them about yesterday morning?

RAMA: Yesterday. Yes. What is unfolding is, yesterday I got to listen to the Dian Rhem Show on NPR and she wasn't on. There was another lady sitting in for her and the conversation is moving ever forward with the accountability of these war criminals being brought to justice even if the spin is what it is, it's spin [and] nothing else. And the fact of the matter is what is unfolding is the war crimes are being brought to the place where we are seeing it and Mother Nature is holding it in that sacred place like Carolyn talked about where all of our children, to all my relations until now. Seven generations, seven generations backwards. What was being said by these folks is this discussion about Iraq/Afghanistan goes back to the morning of 9/11 and we must take this to the place where the conversation is the rest of the story is about spin, nothing else. This is why our troops are having a bit of a difficult time and Jeremy Scahill was

on the Dian Rhem Show talking about the accountability out to this day. George Bush and Dick Cheney and the Bush/Clinton crime family need to be brought to justice. And even though we know this has already been completed on all levels on the etheric as well as the physical, we are watching the end of the matrix right now and the truth will set us free.

As it is being said, Jeremy Scahill later on gave me a call on this phone and it was in the afternoon and I asked him, how did you get this number? He said, oh your friend KOS. He said that thanks to him, I'm getting into the mainstream now. Major TV. Keith Olbermann, Rachel Maddows. Still and yet, he comes on Amy Goodman. He's on NPR now and Bill Moyer's. This is big and he thanked me profusely. For in a sense for introducing him to KOS and he talked about how he wanted me to know this and I didn't know this in fact he informed me. He said, I have some news to share with you Sir. I had a little talk with Anubis AKA the King of Egypt yesterday. This was all yesterday. And he said that since 1997 when the GOP in exile and these neocons put out an edict in a sense where they did an undeclared war against the Islamic people and by killing the clones of Lady Di and Dodi and Andre Paul. And what he talked about is how this

has moved forward with the issues going on in the sense of creating the fake conversation about how we were attacked by the Islamic people on 9/11. This is not so. It goes back to the Bush/Clinton crime family. They are the ones who directly attacked the United States of America and the rest of the world. And they in this moment being brought to justice and Jeremy Scahill said, and I am only passing on what was shared by him. And I have to praise, respect, thank and love the feelings that come up. And what he said is that the King of Egypt, he has put out on Eric Prince, the head of Blackwater USA. And Anubis has said, I have placed a price on the head of Eric Prince, \$100,000,000 note. He told that to Jeremy not to me. Jeremy passed that on to me. And I just said, this is very interesting and I am not holding this in a sense of wanting to see revenge or malice. I am only praising, respecting, thanking and loving the feelings as this comes up.

TARA: And this is all going to be done through proper protocol.

RAMA: Yes. And the fact of the matter is, is that Anubis, that being, he holds the energy as that. Where he is the guardian at the gate where he is the ferryman that ferries these souls across the river Sticks where they...

TARA: [Inaudible] after they leave the body.

RAMA: That's right. And this has to do with how divine justice is being brought forth. At that level, I turn it over to Mother, Archangel Michael and the other Musketeers who hold this energy in terms of divine neutrality for the template of this polar universe.

TARA: And Eric Prince was already told that. I mean he's been told more than once. Many, many times to step down, surrender and tell the truth about what he orchestrated. And that now he's being told he has no more chances and in a sense, to keep one eye open and that [inaudible] against the wall.

RAMA: And Jeremy shared with me that this is about the fact that the C\_A approached Blackwater USA to do the dirty work of the CIA over in Afghanistan and Iraq and to this day, they are not being held accountable. It is a little too late, too much. This is why it is coming full circle where the discussion of the destruction of the tapes, yet they are not destroyed. They are in the possession of the KOS and the forces of light along with

Ashtar.

TARA: Now tell them what you did this morning.

RAMA: I was listening to Amy on NPR, Amy Goodman of Democracy Now.

TARA: It was on NPR?

RAMA: First they play Amy out here on NPR, then they go to the local community, you know, talk shows which is an affiliate of NPR. And the discussion today was about the war in Afghanistan and the war in Iraq. They were discussing the disintegrating rowel with the troops and the contractors in Afghanistan and Iraq. And they were bringing this in a way, the discussion, the conversation where they were not exactly telling the truth. And I called up and got on the air. I said, excuse me Sir with all due respect, I need to bring this back to the conversation where on the morning of 9/11, we had a coup d'etat against the USA and the people of the world. And Bush and Chaney did 9/11, not the Afghani people, not the Iraqi people.

TARA: Not Al-Qaeda except that the real people that Al-Qaeda are, are the CIA and they collaborated with Bush and Chaney and did do 9/11 along with the Musad.

RAMA: And they brought up the discussion, why are you calling this a war? This is a pre-emptive strike against the Islamic World that never did 9/11 and only Congress has the right and the obligation to declare war NOT a president.

TARA: And they didn't do it. They shirked their own obligation and responsibility.

RAMA: And I was just saying, let us call it like it is. This is an undeclared pre-emptive strike against the Islamic people.

TARA: An invasion.

RAMA: And occupation. And they were saying, who the heaven are you? How do you know this stuff? I said, I'm one of the friends of the website of Daily KOS and they said oh, Markos Moulitsas Zuniga, we know who he is. I said yeah, he is a friend of the KOS. They said oh, we know that.

TARA: In other words, they knew who the KOS was. And this is the first time ever that any talk show on PBS in this area ever, or NPR, have ever discussed the issue of 9/11 and the truth there ever because it has been blacked out because in this neighborhood of Annapolis, it covers all of Washington DC and they have never allowed it to be discussed. This is the very first time so that was very big.

RAMA: I also brought it to the place in which the conversation was going in the sense, how come Mr. Obama has not brought these people to justice? How come he's dragging his feet? I said, it is not up to him, it is up to the World Court and Lady Master Nada and that will be handled immediately.

TARA: Did they ask who she was? Did they know who she is?

RAMA: No. I said, she is a special representative working from the World Court with Eric Holder.

TARA: Special lawyer.

RAMA: Special lawyer and working with a special prosecutor who is going to hold these folks accountable. And they were very interested in hearing all of this and they said, this adds a new piece to the discussion where this has not been talked about before and we thank you for bringing this to the conversation. And I mean, they were very happy because a lot of these folks didn't even know this information. It is almost like, since 9/11 people have been getting a little dumbed down with just the opinions and with the discussions going on where they are being fed infotainment. Like Keith Olbermann describes infotainment.

TARA: Except for one thing, these folks evidently were told that the Gag Order has been lifted on them. That's another thing that is important and that is why Rama was able to speak and they let him speak and they were happy about it.

RAMA: Yeah. And they talked also when I got off the phone. They brought up the issue that the CIA had been already playing with detainees and experimentation of torture and abuse at the level in which this violates all of the protocols of the Geneva Convention and the Rules of Engagement. And these are war crimes that will and are being held accountable right now as this is brought forward.

I also just want to say, we need to put out a call for serious help to help us get on the road here. And I would just like to say how folks can do that is by calling Marietta Roberts at (317) 773-0061 and she will explain how to send it to us.

ROUNDTABLE

SHARON/MT SHASTA: This is a question for Rama and Tara. Could you share with us what the SOE and the SAE in China decided when they told their businessmen that they no longer had to honor the payments the 6 top banks regarding the derivatives that they've been shorted on? Do you know anything about this? It has been on the Internet and Bill Fulford spoke of this on the [inaudible] Show the other night. So can you share something about this? That they no longer have to honor payments to the 6 major banks.

RAMA: I'll just say what is going on is that China knows that they have to all be in agreement and as the Lavender Lad holds the purse strings for the people of planet Earth and all the trusts even China knows. They have to answer to St. Germain and they are shaking in their boots cause they know he can pull the plug on them anytime. And I'll just say that they are trying to flex their might and try to scare the people, yet they have to answer to St. Germain just like all the world's banks. All the 13 families have to and they know he is no one to be trifled with. I hope that answers that.

KENNY/FL: I would like to know now, I've been telling people a little about what's going on and they look at me like I'm nuts. I'm 3 ½ years sober and now they are thinking I'm nuttier now than when I was drinking. Is there anything concrete that I can tell them? I do have one concrete thing and that time is going by so much quicker now than it ever has, but is there anything else concrete that I can tell somebody or tell my family or my friends?

RAMA: What is your name?

KENNY/FL: Kenny from Florida. I've been listening to you all since about February and you all are great. I love you all, I really do.

RAMA: Thank you.

KENNY/FL: I'm waiting for the ships to start landing. Then they'll know I'm telling the truth, you know. But you know, until then, I'm telling them about massive arrests and I don't even talk about clones or you know, or they would [inaudible] then. I'm telling them massive arrests are coming real quick. Is there anything I can tell them right now that's happening that they would, you know, would sure that I'm not talking out of my butt?

RAMA: You can tell them to go to [www.huffingtonpost.com](http://www.huffingtonpost.com). There's an article there where the wife of a newly elected leader of Japan outright came out and talked about her Galactic experience where.... She just wrote a book and she talked about how she had an out of body experience and went to Venus and experienced going there on a triangular shaped craft which are the Andromedans. It was very peaceful, very joyful. It was green and lush and that is the way Venus is. It is a sister planet where they have already had millions of years of peace. This is in 3D. This is the wife of the newly elected leader of Japan.

KENNY/FL: He's the one going to be running Japan just like Obama is running the US then?

RAMA: That's right.

KENNY/FL: Well thank you, I really appreciate that Rama.

SHIRLEY: Rama, I listened to Ben Fulford's interview on Wednesday night. He said a couple of things in addition to what about China not honoring the trades. He also went into how the Illuminati not only killed his Grandfather, but his Grandfather's son-in-law. So the Fulford Family has a special interest in these people being brought down. But he said, there is rumor from sources that something could happen next week, but basically if it didn't, he was kind of sticking to the September 30th date, but that nothing being told to the American public until he had 2 dates. October 7th or October 20th. Do any of those dates mean anything and do you know anything about next week?

RAMA: No. And I'm not sure what to make of that other than I have to turn it over to the higher forces of light. I also know that Benjamin Fulford connected with Jeff Prince can't always talk about what we're talking about. I'm not going to give dates, yet I am going to say, the fact of the matter is, that as we're approaching the energies of 9-9-9, this is building and it's increasing the pressure on these guys (the GOP in exile) to create more big stories that divert the attention from the real story that our Galactic Friends are here. And it's interesting since that Monday a week ago, or two weeks ago now, that these 2 craft appeared over China and then the story changed and it was the story about special prosecutor getting appointed and then Ted Kennedy suddenly died. And all of this has to do with the fact that it has to do with the reality in which they are wongo in the congo. It is about, they want to stop the

discussion about the Galactics showing up.

TARA: And every time they try, somebody else brings the focus back. I just wanted to say that the wife of the new Prime Minister. The party that was in power before they got in, has been in power for 55 years. This is so

huge because I can't remember the name. Well do you know what the name of that old party was?

RAMA: No I don't.

TARA: Whatever it was, it was completely dominated and controlled by the USA and CIA which means that Japan just got free of the CIA and these people are not answering to the CIA anymore in addition to that. And also she had that experience 20 years ago which is another thing that everybody is going, OMG that happened 20 years ago. Where was I 20 years ago when that was happening?

RAMA: Yeah. This is big folks. It is huge and a world leader's wife would come forward and say I had an experience and these are the Andromedans and the Andromedans only come in total neutrality. They have always said, we will not intervene in the affairs of the Earth people. Only in the event where you stand down with all your technology of death and you invite us in.

TARA: Or if you don't, we will intervene in your civilization's development because we will not allow a nuclear holocaust on your planet.

RAMA: Right.

SHIRLEY: Rama, I just wanted to tell you that I read on CNN where we normally see it beforehand that the G20 countries are meeting in London tomorrow. And that hasn't really been publicized that much. It was on CNN today and they are going to be talking about the banking world and how they should make new rules and even make one that would supplement Basil 2 so maybe Mother might know something about that because usually we know well in advance that these countries are getting together to talk about, you know, the banking system.

RAMA: I'll just say that my understanding the G20 is trying to cover themselves in the sense where they want to change the conversation to the banking situation and the failing economy [inaudible]. There is a stabilization going on, on many levels. And this has to do with the Lavender Lad pulling it out of his pocket and the G20 want to create instability. They want this all to fail so they can declare Marshall Law and create a New World Order based on limitation, death and slavery. They don't get to.

KAUILA: I just wanted to make a point to the gentlemen who called from Florida. I spent 2 years in Florida and I also found my higher power in Florida where I went several years ago and sobered up and that was kind of my spiritual beginning. There are a lot of things that are happening now that I must say and I'm sure there are more people listening on this call that are in the same situation. A lot of us perhaps have been in the program and definitely a friend of [inaudible] and Dr. Bob. But there are a few things that sometimes we just, there is a time and a place for everything. Although I do understand now that these Galactics are here as a higher power and sometimes these things are best discussed after the meeting or on an individual basis with sponsors and so forth. So that's just my take on that. The other thing I wanted to mention. Some of you know that I've been seeing star craft around here now for the last week and a half

and I was watching one that I've seen before. It kind of sparkles and he'll move slowly, once one way or another way. But last night, this star craft, the same one. It was almost like it was dancing. Just a joyful dance. I mean I'm not talking about a gradual movement. I'm talking about a bosa nova kind of dancing, back and forth, back and forth and so cute. I just wanted to point that out and sounds like there is a lot of activity coming in and I'm so grateful to see that happening. Mahalo.

MARIETTA: That will help others to know that they aren't going crazy when they see these stars dancing as well.

VANESSA/MI: I think it was the Japan or China lights. I was reading that. Is it true that her husband was also nicknamed "the alien"? Is that some significance to what is going on?

MARK: That is correct.

VANESSA/MI: So is he actually an alien or is he just...what was the significance to that I guess or how is that related? Is that why his wife had an encounter?

MARK: He is an alien. He is an ET. We will be bringing some information in on a direct channeling on this subject in a little while.

MARIETTA: I might even comment, she wasn't married to him at the time. You were asking about their connection. As I understand it, she only recently joined him.

ROBIN/CO: I would like to know how soon and what kind of advanced transportation that we can look forward to after NESARA and our counseling and so forth. We haven't heard much on how we're going to get around. Can someone speak to that a little bit?

RAMA: I will say that as the discussion moves forward with the freeing up, the technologies that have to do with free energy, we are going to hear more and more about how our Galactic Friends will share with us, their wisdom. How we can move away from using oil and other technologies that are not based in universal freedom.

TARA: Also, the first thing we are seeing is that we must bring the presence of our brothers and sisters to the forefront first. And as we heard Mark say, they are going to have a lengthy discussion tonight about exactly that. There has been a Galactic Council Meeting that they attended between yesterday and today. And so I think if you will Robin, just hold your further questions about this and see what Mark and Beth and Kauila have to say about all of this Galactic introduction.

ROBIN/CO: Okay, I will do that.

SONYA: I have a question regarding in the future. Will a huge portion of humanity be moving into Inner Earth?

RAMA: No.

TARA: And anybody that is reporting anything like that, it is a big NO and that is disinformation. There are many Galactic reporting stations that are discussing that and those people are promulgating this information. [Interference]

SONYA: So that is disinformation?

TARA: Yes. Anything about saying that you're going to be ushered in the Inner Earth to live in the Inner Earth is complete total disinformation. There will be nobody living in the Inner Earth. In fact, the Inner Earth beings, once NESARA is enacted and the Galactic presence on the surface is announced. The Inner beings is going to be coming and joining us on the surface. It is just the opposite. There will be nobody going in the opposite direction. This is to bring safety and bring everything to the surface so that we can have a Galactic Society together and we don't have to be in the Inner Earth. The reason the Inner Earth has even been allowed to continue for this duration because it was a mistake in our past history since Atlantis and the destruction of the Great Crystal.

SONYA: Can you say that again, I missed your voice. Why was it allowed the Inner Earth population?

TARA: It was allowed because at the time in our prior history starting with the destruction of Atlantis and the Great Crystal of Atlantis, the Orion Warlords from the 5th dimensional war in Orion, they brought that 5th dimensional war to the surface and the Galactic beings of peace and the Colossians and the Agartha people did not want to continue to fight so instead they went into Inner Earth and they refused to fight. And once these guys are arrested and that's all that's left, is Orion Warlords that are still acting like renegades running around declaring their supremacy on the surface. And that has a lot to do with all the different levels of white supremacy, that belief system. We will talk a little more about it on Friday and Saturday because there have been periods of white slavery, then black slavery, then white slavery, then black slavery. It has been going on a lot longer than people know the history of and we'll be talking

about that more. Once this is over with and it's very shortly over with, the Inner Earth beings will be so happy to come back to the surface and celebrate and live a Galactic peaceful life on the surface and will help us.

SONYA: Is that the Agarthan people?

TARA: Absolutely. That's all the people since Atlantis and the Lemurians went primarily into the Inner Earth pretty much because they didn't have a choice. That's what I'm trying to say. During these periods, a lot of the land sunk so they went to the Inner Earth along with the land that had sunk and that land will be coming back to the surface. As a matter of fact, we are hearing reports all over the world. There is a big island that's very close to the surface south of the Big Island of Hawaii. There's been announcements of land that's come to the surface that was ancient Atlantis off the coast of Spain, off the southern coast of England, off of the coast of Ireland, inside the Mediterranean off the coastlines of Greece. As a matter of act, the capital of Atlantis which is where the Mediterranean is right now, that city, that whole city has been rediscovered intact and they are talking about it being back on the surface as

well. And many other places over there in Asia and China. There are many, many new lands coming to the surface from the time way back when these destructive periods preceded.

SONYA: Yes. And one last thing as I know I've been on the question for awhile. Along with that, it is not true then that Mother Earth in her ascension process and restructuring will be basically restructuring her surface to a point where the population of humanity wouldn't be safe on the surface. That was the reason to either

going to the ships or to Inner Earth. So she's not going to be rocking and rolling then?

TARA: I can say this, 90% of the fear based warnings of mass destruction are just that. They are disinformation. Again, many Galactic places and websites are reporting this and they are also disinformation. And I'll just say that the work that the Colossians when they come to help us and what we do on the Galactics coming here to the surface and helping us. What we all do together mitigates further and further any further Earth changes. Now there will be periods of time and they are talking about 2717, 2718, 2719 where there's another period where from serious Earth changes are implicated, but depending on what we do between now and then, also those things can be fully mitigated. Right now, is the time for love and peace.

STEVE: I was curious if anyone, is there any significance to Obama making a speech on 9-9-9 about, essentially about healthcare, but someone also said that he was going to push the reset button or something like that. I just wondered what anyone thought about that.

RAMA: I'll say it's no accident that he's choosing to do a joint, I mean addressing both the House and the Senate on 9-9-9. It is quite significant with the energies culminating on that day. From what I have heard from KOS, Jeremy Scahill, many other folks, that he has picked up the gauntlet of Ted Kennedy did where he suddenly had to leave seemingly yet Ted Kennedy is not gone and I will say that this is about not just you know, single payer healthcare, this is universal healthcare where it goes to the level where every man, woman and child in the US gets free healthcare. Like Michael Moore described in Sicko.

TARA: I would like to add that that's going to go with a great deal more responsibility like our educational system up until now, there's been so much horrific things happening. Government agencies. Just this morning, Amy Goodman reported first of all that there's been much drilling going on. Can't remember the name of the place in New York, but they caused fracking to occur when they do this. And the fracking not only brings methane gas into people's homes and into their water and into their air, it also brings very lethal chemicals when they are drilling and fracking and they are not telling the people and now there's a particular family where they made a settlement for all of the damages done to the family including an adrenal cancer tumor that the Mother developed as well as the Mother breastfeeding her new baby and the child being affected by the Mother's breast milk by all these terrible chemicals. And she agreed not to

talk about it, yet it made it onto the show because she had gone to Good Whistleblower people who brought it the attention of the people anyway. That's not going on just in NY, it's going on in all kinds of states. So absolutely. There will be arrests and there will none of this allowed anymore and all of this chemical treatment of the drillers, that will not be allowed. And the CEOs will be arrested, all these corporations will be shut down. And we won't be using oil anymore. We don't need it - we never did.

The other thing that Amy brought up even more shocking, it was about the medical association. In particular the psychological association. MDs, psychiatrists both designing, orchestrating, implementing all the torture. Just not in Guantanamo. In every place where we had military bases where we have been arresting and torturing and killing people. And this is huge. That was the story that was brought to Amy Goodman today. And of course, the government will have to educate our children properly and all of the science and education that we have ever received in our educational institutions including medical school have been teaching lies about what's healthy and what kind of bodies we have and what kind of food we're supposed to be eating and all of the genetically modified foodstuff businesses will have to be taken off the market and the appropriate people will have to be arrested including and especially Donald Rumsfeld, Monsanto, Dow

Chemical, etc. etc. And this will be taking place very rapidly once NESARA is enacted and Barack Obama will be I believe putting his foot down big time. I can still go back and refer to May 9th when he had that dinner at the Whitehouse and he was addressing 1,200 Whitehouse Correspondents and at the end of his talk, he said, in the next little while, I am contemplating losing my cool. I believe next Wednesday, I think he's going to show everybody what he means by that.

STEVE: So you think he'll discuss more than the healthcare issue next Wednesday? That's what I'm hoping anyway.

TARA: Well, we can just hope for the best. I don't know exactly what he is going to say. I can tell you this, Barack Obama is a White Knight and Barack and Michelle get to talk to the KOS on a regular basis and what they are going to do is going to be in perfect alignment with the KOS and Faction 3 White Knight Operations.

STEVE: Good. Thank you.

Part 2 (A-Team)

KAUILA: I knew I was going to get a message this morning when I woke up at 5:00. Usually 5am means that I walk down to Java on the Rocks and the KOS hands me a message. So this is the message that came through

today:

Thursday, September 3, 2009 (KOS with a little Mother on the Side)

King of Swords here...

As we progress through these new openings and changes, we encourage each one to release the motes (some of them are "big" ones, so it seems, some appear as "moats", as in meant to separate one from their truth-selves) that are brought up for clearing. As these items for clearance arise within, we encourage you to allow the emotional components of these to be felt (feel them fully), so the release will be quick and complete. Surround envelope all in the healing transmuting violet flame of transmutation. Envision all persons, things, events, involved enveloped in this violet flame, and allow the energies to be cleared to jump into a violet rose. After all of these have entered into the rose (and perhaps it looks "full", so to speak), take this rose to over the ocean, or the mountains, wherever is a cleansing place for you.

Then see a star-spark enter this rose, and see it "explode" if you will, into a rainbow of streamers and colors. All perceived darkness returns to the nothingness it came from. All you see are the colors of the rainbow, as your joy is released.

You may proceed in this way with any matters that arise. Some variances you may bring in as your guidance directs, but we recommend the rose due to its High-Vibrational- Essence in your cultures.

So today, this morning of the weekly message from Mother, she has asked to share a short communication to the many who are in transitions at this time.

Mother Sekhmet

Greetings to All! We extend the paw of Aloha to all of you as we see much Ho'oponopono going on all throughout your world. And that's because it is all throughout your Self. My craft and I have appeared much over this New-Creation- New-Lemuria- Land of late in support of the New Original Lemurian Time Line events just now transpiring. Cats Eyes are everywhere!! [this refers to the almost nightly appearance of cat's eyes and faces in the clouds over Kona]

As many of you, my precious darlings, are guided/nudged/ "pushed" into what look to be "major" transitions in individual lives, we wanted to share some insight with you about that.

You are each already in a major transition, individually and collectively. So matters not if you stay in or move from a particular location or situation. Some of you are guided, if you wish to say, to move physically, some to leave a job, some to leave a partner. We will just say that your attunements are changing, more and more aware now of their Higher Callings, and in particular, their Higher Callings to assist and participate with this great transition happening NOW.

These transitions occurring for many we would say, some would say, major type. These occur now in preparation for the grand transition, freedom releasings of much. Then freedom to move as called is yours.

Recall also that your training is in progress for the Higher dimensional living. Already you are in the 5D mode, already you see as 5D direction comes (like, "I just KNOW I am to go here. I don't know why; but I just KNOW."). You are called, you are directed, you are supported, if you will, by us. Wherever you go we are with you. Wherever you need to be, your heart voice will tell you. You will have all you need to accomplish your missions, for it is OUR mission.

As you encounter beings along the way, we encourage this guideline... all will be done in a pono way ("pono" meaning that everyone wins), in particular, this is not a tit-for-tat (or shall we say "Kit for Kat"?). Allow others the opportunity to be part of this grand event and communicate to them the special part they play, even if seemingly small. In this way more and more are drawn into the process we call, Whole Earth Ascension.

We pass the talking stick to the Sword Man.

King of Swords

We would like to tell you now that what you have heard about "separation of worlds" has been occurring for some years in very small ways, shall we say, but now it is in a "larger" way. After we have made official public hey-these-beings- really-ARE- here appearance, and we openly are living working so to speak, with you, separations will almost be complete. No one will be aware of these except those who stay with Gaia/Vywavamus. And they know in a 5D sense as they come only from Love and Joy.

As you separate from the unusable concepts, the old ideas (may be only a minute old (Hah!!)), freedom

abounds. Joy abounds.

Allow this to happen.

That is all,

King of Swords

KAUILA: And I have one note after this. Just after I received this message at Java on the Rocks, I switched to a different table. I was waiting for friends from town. I saw a small object in the sand. I never pick things up from the sand over there. I picked it up and there is a picture of it in this week's KOS message, today's. It's a coin and the coin looks like a little button or something. The coin says Free World so I thought that was quite appropriate. Aloha.

MARIETTA: I think that was a really, really significant find to find a coin that says Free World. That's an ahah!

KAUILA: The whole message was about freedom.

MARK: The biggest story today and someone has already mentioned it once in part, but this story... We want to emphasize how big we believe this story is. The one about Japan's next First Lady saying she rode a triangular spaceship to Venus. Now if this was just a person on a normal talk radio, that would be one thing, but this person was already pretty well known. She had a program called Mu. In that she did interviews with very prominent people who would share, which is not the usual case, especially in Japan. They would share their personal experiences in dreams and elsewhere of spiritual events. She declared openly that she was that. Then she took those experiences (26 interviews in particular) and formed them into a book and that book was published last year.

This brings this into prominence because she's not only an experimenter, but she is a public figure who has been on the radio. Has had these experiences and talked about them, then compiled them with other interviews in a book and now she is the current wife of the to-be Prime Minister of Japan. He will take office on September 16th so you can see this is all coming up here in the next 12 days. In the middle of that, we have 9-9-9. So when this appeared last night on MSNBC on the Rachel Maddow Show. We instantly, Beth saw it, she didn't have the sound on, but she had the TV on and we happened to be on a conference call at that time. She immediately interrupted and said, we have to look at this. So we did and the more we looked at this, the bigger the story became. Because there is much more to this than you might think just panning it, but I'm sure everyone out there has some clues. This is the coming future of Japan. The face of

the future of Japan that we are looking at here. So Beth did you want to give a little more on this before we go into what we did today to follow-up on this story?

BETH: Well, I just wanted to mention that her program that she had used to be called Mu. Some people may not know Mu is considered the hypothetical lost continent like Lemuria, but off the shores of Japan. That's pretty meaningful I think.

MARK: Well in addition to that, do you want to speak about her experience with Tom Cruise?

BETH: Well when the story came out, she said back in 2003 when he was there filming the Great Samurai, she had a memory of a past life where Tom Cruise was a Samurai and so it seems like that she is a mystical person and she is bringing this forward in a very audacious way right before she enters office. Especially by mentioning her husband's nickname is "the alien." It seems like something in the culture of Japan, people wouldn't be coming forward and saying that so boldly almost on the eve of their inauguration. It is very interesting.

MARK: Right. And I just want to repeat again if people didn't hear what you said. In 2003, Tom Cruise came to Japan and he filmed a film that year called "The Last Samurai" and when she was watching that, she had a past life recall where she was there with him and he was a Samurai. So now here we fast forward to this week and last night in particular and then our reflections on this today. In our discussions, 2 or 3 things came out very, very clearly that we wanted to ask about. And one of them struck us immediately. These look like Twin Flames and hybrids at that.

So these are Galactic Human Hybrids. So we decided to investigate that part. Then we looked at it again and said wow, these are Twin Flames I believe. Who else do we know that's a Twin Flame? Well, the President and First Lady of the US, Michelle and Barack Obama. Hmm, so who else do we know that are Twin Flames that have a role in this current moment? Let's see if this takes us anywhere. Beth, who was the next couple?

BETH: Well, right away, I thought of Princess Diana and Dodi Fayed. Rama has told us before that we call

them the nameless ones because they were replaced. They didn't really die in that accident and they have been living in secrecy and they have 2 children, 8 and 10 years old, and they will be coming back. These Twin Flames in leadership roles in England after the announcements and things start to come into place. So I felt it was significant knowing about Diana and Dodi and their roles that will be coming to play and also knowing the role of the Sirian Commander, Barack Obama and Michelle.

Then, I had been watching the Japanese elections, but I didn't know a lot about their political parties there and I could tell by the news stories that something significant had happened so I was trying to follow it. When I saw the statement by the incumbent First Lady, I said ahah, she is making an announcement that we are here, we are Galactic humans, and we are coming together as Twin Flames to be the representatives of love in Japan and we will be standing together with these other two couples as World Leaders. That came to me immediately. This was her coming out.

MARK: So then after this Beth, we got to talking some more and we found at least one other couple that we know about who is also very prominent in politics that just happens to be the head of the Department of Peace proposed on a national scale that will virtually replace the Department of Defense. That is none other than Denise and Elizabeth Kucinich so this really got hot on talking to a couple of prominent people. So Beth asked who out there in the galaxy would talk to us about this issue. And so today, Beth you want to tell them what happened?

BETH: Well, I asked and the Lady and Lord of Sirius said that they would be more than happy to make a comment about, you know, if our intuition is right and what it means. So then we went into meditation and went out of body and went to meet with the Lady and Lord of Sirius and asked them if they would comment on these new developments that seem to have convergent scenes. Especially when you are talking about returning the world to love. It would make sense, there would be Twin Flame World Leaders spread out over the world. You know, to work in tandem with each other as these new changes comes through. NESARA has to go out to everybody. So that's what we did. Would you like me to read what we received today?

MARK: Yes. Sure.

BETH: Mark and I went into meditation and met with the Lord and Lady of Sirius at Sirius:

Greetings!Welcome back to Sirius.

We have been here on a bestowal Mission since before Sanat Kumara went to Earth to prepare for Earth Ascension.We are here at Sirius as Keepers of the StarGate. As the Universe shifts from the old to the new Matrix Hologram, the role of Sirius also shifts. No longer is it our role for energy to filter in from the Central Sun and out to Earth.Now Earth is able to absorb this pure energy easily. Now the energy comes directly through the Central Sun to Earth. This is what is meant when it is said the Earth is receiving massive amounts of greater energy. We have shifted out of being a filter for Earth. Sirius is a learning place for all things etheric.

As we have shifted our focus of energy, we will now be concentrating more on Unity throughout our Galaxy... and a place to hold Cosmic Council Meetings on all subjects related to Universal Ascension.

Yukio and Miyuki are Twin Flames (as are Michelle and Barack and Dianna and Dodi). These Twin Flame Couples will be in place to head up the U.S. Japan and the UK as co-regent leaders. As we move into the new Earth Plan, these co-regents will work together to organize and integrate worldwide peace and mission plans. There will be a need for cooperation between world leaders to bring about fair distribution of wealth to every country in every continent of Earth. It is necessary to have Galactic-Humans in place, those who remember their Galactic role, in order to carry out the plan. There will be no delays, in the days after the announcement, in bringing clear water, abundant food and healing to those in the poorest nations on Earth. These co-regent couples will be sure to oversee the rapid response of resources to the poorest areas, on every continent.

Yukio and Miyuki are hybrids. They are Pleiadian and Sirian, as well as some other influences. They are greatly drawn by the natural forces and will bring balance and fairness to all the realms on Earth. They will bring back magical thinking on a large scale as they invite fellow Japanese citizens to put aside their publicly stoic natures, and feel free to be sovereign co-creative beings. For far to long there has been class separation and false control over the peoples of Japan. They are in a new era when they may explore their ancient culture and how connected to the Galactics they are. Having Japan change in this momentous way, will effect all the rest of Earth. This infectiously bubbly couple will be an ominous Force to bring change.

When these three couples are free to join forces in the New Earth Plan, they will leave no stone unturned in bringing freedom and abundance to all inhabiting Earth. All of the funded programs, along with the programs currently under design, will swiftly move through the Galactic-Earth Council, under their Guidance, and be put into action without delay.

To have a World Leader, such as Miyuki, publish a book regarding "Mu" and bring to mainstream her OOB, UFO-rides to Venus, at this point in Earth time, is no mistake. The stage is being set. The tide is taking a definitive turn.

Blessings All.

~Lord and Lady of Sirius

MARK: So here we have a story in our newspapers. Here we have a direct channeling where we appeared to and were spoken to directly by these two beings. By the way, they are on the starship and they will be moving their starship and they will be re-positioning themselves for the universal ascension process that is going to follow immediately after these announcements. So we cannot give a date certain. We can only show you that this is one more example and this is the biggest one yet because we have never had a public figure go out and talk about UFOs as real nor have we had a couple who are Twin Flames openly discuss some of the other issues involved. I would even suggest that some of you that are interested in research, look up those 26 interviews that Yukio did before she met her current husband. Very instructive stuff and I'm sure they will be out in English if they aren't out already.

So we had this 4th couple that I mentioned before this, Denise and Elizabeth Kucinich. As I said, he is designated to be the Department of Peace Head and that is so potent with promise and who else has had the one voice that has steadfastly said that we need a public option for healthcare? Dennis Kucinich. So these people that have been prominent and rotated from the front headlines to the sidelines and back again and now they are all prominent again at the same time. Anyone, you might say, with reason, I believe I see a pattern here and it may be just popping at any moment. Then we have 9-9-9 which is coming up. Most of you have heard or read or visited [www.earthkeeper.com](http://www.earthkeeper.com) and seen James Tyberonn's channelings there which are very good of Metatron. From Metatron who just happens to be in charge of the crystalline transformation of this planet using now the platinum and gold grid points. Everything in the crystalline environment, world, universe, whatever uses grids and grid points to manifest everything. So here we are.

Now we set this to the side for a moment and we want to mention that Lord Arcturus told us in this past week that we are free to release the people. All the people out here listening. It is now okay. Their main ship is here. Their Mothership from Arcturus is here and the smaller ship that they were using before (which we thought was quite large) is just a baby compared to this one. This is a permanent setup. This is a world and it's here and they now have new equipment. We mentioned this on Tuesday night, but for any of you who did not hear our Tuesday night conference call, we will mention this again because this is something you can do. It costs you nothing. All you have to do is ask and you will receive the help you are asking for. Depending on how you ask it, you can continue that help until you have completed your full crystalline migration from carbon based (which will be no more and shortly won't even be able to be here) to

the crystalline which everything in the universe is crystalline.

So that is what we are doing. They normally examine you. In a certain sense, take your readings and then they determine where you are now and based on your medical condition and everything else as to how and what kind of increments. But most of the increments go in the normal case from 2-5% up step every 3 days if you ask for it. So if you only ask for a one time thing, that's all you'll get. You might say, well, they should know. No. They are not allowed to do this because we have free choice/free will and we must exercise it. So when you go to bed at night, be sure to ask them to continue the treatment in all of the intervals necessary in order to upgrade your status. Everyone on the planet is 51% or more. We have a critical mass folks. Some are quite a bit more and some are right there in between those levels. If you want this free help, that would be the thing to do.

So with that, I think we can go now to Mother. I want to ask Mother to comment anymore that she has to share on the roll of these Twin Flames we just mentioned and the impact on what we are all waiting to see which is arrests and announcements.

BETH: I'm sorry. I have to add one item. It was very clear from Lord Arcturus. He said it takes 72 hours to implement the new step ups. That as we get higher to being fully crystalline, you are getting a larger jump or increase each time and it takes 72 hours. Mark said something different. So as long as you wait 72 hours between asking, everything is right on. Keep asking for those incremental increases in the crystalline body. They are yours. All you have to do is ask for them. When you are drifting off to sleep at night, you will be taken, bilocated if that is your desire, and those improvements will be made. So thank you.

MARK: Thank you Beth for correcting it. I think I said 3 days which is actually three 24 hour periods, but 72 hours is the correct term.

KAUILA: Thank you for calling in.

MARIETTA: We are grateful for you being our Wayshowers, our leaders in helping us understand what is possible. When someone mentions the possibility, many times we aren't even aware that these things exist so we are grateful for all of your assistance and helping us to understand what some of these potentials and some of the possibilities are.

### **Part 3 (Mother Sekhmet)**

[Invocation of Mother Sekhmet]

TARA: And we ask at this time Mother for all of the Councils of Light of the Brotherhoods and Sisterhoods to come and for all of us to join them on the Councils at this time. And to don our light bodies here and now and bring with us all the Fairies and Menehunes and the Angels and the Gnomes and maybe even a Troll or two. And the Dragons of course. The Councils are for all to come together to the compromise the promised land. And for all of us to remember who we are now and forever and help all of our neighbors and friends to be the same. And we really honor and thank you so much for you coming and guiding us Mother all of the way. I am sure that this is true of the A-Team and all of us that extend from there as well. Greetings Mother, thank you again.

MS: Greetings wondrous beings of incredible light and love, peace and joy. What is happening here! My my my! All of us waking up to the fact that we are more than we are and then some. The idea that your elected officials in different [inaudible] countries coming to share their wisdom of their Galactic knowledge. Very awesome indeed. We are most honored with what you have shared Lady Master Beth and Commander Mark. All of your incredible discussions with what is taking place at these times where the conversation coming to the place where we can have what we have been talking about. A World Roundtable at the House of Mica if you will. So we can come share at the different realities of which each one of the different nations whether they are the radiant ones or the finny friends or the slithering ones as your friend [inaudible] talks about. Or even the ones that walk on 2 legs or ones that walk on 4 legs. Even the suicide bombers that are called Humos and Oostabala. Interesting discussion about the \_\_\_\_ and this word called Palestinian which is not even a real word. This comes in again with that funny stuff called word magic. Watch the movie Clymatica, Dr. Jacques \_\_\_ Venus Project. These are the realities in which we are creating the magical steps where it only takes 7 people to run the planet. And it is simply running the machines that take care of themselves. And it is not about cyberdine with the terminators. It is about love and only love. At that level in which we are the ones who created this dimensional reality where we had set it in place as co-creator gods. Designed the Adam Kadmon so that we can step in do this within this Temple of the Living God body of water you are all made up of. How much? 98% water? It is about that and as the tides roll in and out affecting by Luna and it has nothing to do with Luna seed. It is about the reality that is very real. That we are about to get another moon in your midst. This other moon. Could it be Fobos? Could it be Demos? The people of Mars. Maybe lent you a moon or two to do what is needed to balance out this planet. As the other moon, well, she kind of went asunder long ago in the Galactic wars.

And what is happening here. This great discussion how we move into balance, neutrality and love. No accident that the Twin Flames coming together to do this. We know we are all over the map with the words. We are just saying that the discussions are that from the various galactic sectors of the neighborhood and who's who in the hood. It is about us and you. We are ONE voice, ONE LIGHT OF ALL THAT IS. Where we are taking it to the level in which the [inaudible] in this galactic neighborhood and we are ALL incredible loving beings that share a vast universe that is not so small. It is quite large and yet in the sense, it is just a local neighborhood and the idea of light years separating all of us. How fast does light travel according to "your scientists"? 186,000 miles per second or more or less. Not sure. You are moving at that speed of light and faster so we are catching up with ourselves and quite a lovely cosmic dance as we do this together. Unity and oneness because that is what it is about. Nothing else. How we heal this with each other is the biggest dance there is at the moment. It is seemingly a house divided against itself with the fake stories of all the issues of how you got to this so-called next chaos. Yet out of chaos comes this order and it is seemingly the order of the universe. Because it is not in this order. It is completely in order.

It is that reality where like you follow the particles like Dr. Quantum talks about. Your friend there. Dr. Fred Allen Wolf. We forgot to mention. He has been in our discussions lately. And KOS shared with us a little wisdom today about Dr. Fred Allen Wolf where new movie coming out soon. Going to take up where what the bleep down the rabbit hole left off whereas we travel alongside the particles, we get to see the creation of what we all began as. Those of living light/living love. As these balls of light of living love come together as Twin Flames, it creates that static electricity of magic that is of upmost wonderful kind and that is the truth. Loving reality that has been given to all of us. How this filters down into 3D is the discussion in which how you heal yourselves and your planet for 2 years now. Going on 3. Tigress and Euphrates River down 4 feet. It has been

falling and funny lines in the sky that come out of the back of the planes. It is not coming from God, nature's God. Coming from the hand of man.

And we heard a farmer [inaudible] today saying I've not had crops in many moons and the aromatic rice that I grow. That aromatic rice, if I do not bring it home, my wife will bolt the door and tell me to go get a job. And it is that reality in which we are bringing the discussion full circle where they the accountability is now that we hold the war criminals accountable for what they have done to our people of the ancient Mesopotamian Valley as well as the City of Eroc, as well as the land of the living Buddhas. We will just say, all of this coming full circle and the dance that is being done by Calle, Pele, Durga and ourselves. A dance culminates in where Sheila of what has been discussed by your friend. Hanepoona from the Hague of Sheba sprouts the river Ganges also known as Gongga and we would say \_\_\_\_\_ to Shiva on the \_\_\_\_\_. It is about that energy. Gongga the river of life and Shiva with Provatee. These ones. It is that place [interference]. This energy of what begins at the river Mt. Kylosh. The head of the mountain and it comes down into river Gongga. Into the other areas that meet in the sea and travels out across your planet. Lord Shiva, Lady Master Provatee, Duga, Ganesha bring the gift of abundance and creativity. Where out of the jaws of death comes the river of life.

And we are just saying right now, you are witnessing the great transformation where one of your leaders, your elected officials has come forward and said, we have met our Galactic Friends. It is not about war, it is about peace. And that carries the discussion further where like your Congressman Kucinich and his wife Elizabeth creating this Department of Peace. Already created. Maybe we are working with fear. Working with the Department of Peace. This is what this is about. How we can have a Department of Peace instead of the Department of Defense. Lower the shields Captain so we can talk face to face without any interference and at that level, everyone can come to the table and talk like we have said.

Whether it is Homus or \_\_\_\_\_ or even what is this fake story? Taliban? Al-Qaeda. These are just paid operatives of your own C\_A that have nothing better to do than collect the money that is based in worthless paper. The phantom economy throwing footballs around with your cash. Better to take that and use it to heat the fires that will warm the home like they did in Germany in the 30s. Took stacks of cash and burned it in the fireplace or in the wood stove because there was no wood to burn, yet there was lots of cash to burn. And what we are saying is, it has come full circle. Like even now, this fake GOP in exile. These rag tag rebel bunch of our own wayward children who would want to misinform you about us are coming and saying be very afraid of the Sirian Commander. He will demand your children to be indoctrinated and filled with the lies of communism, socialism. Not true. It is an unfair discussion which has been one-way. We are breaking it up, shaking it up and saying it is now time for ALL the groups to come together. Do you have 4 legs and a tail? Or do you swim? Or you fly? Or you walk on air even? Or walk on water? Matters not. Or you live in a Petri dish? Everybody has a right to pass the talking stick to share the freedom. The voice of freedom will never die. This is why we have to say that honor the fact that this conversation about what Senator Kennedy brought forth. His life mission. Deliverance of healthcare for every man, woman and child in this country. Can you imagine walking into a hospital having a baby for free? This it is what about where we can have that discussion and not be ridiculed for who we are.

MARIETTA: Well we thank you Mother for bringing all of this information through. I do have some questions that have been sent in. One of the questions is about: Last year on November 17, 2008, Dr. Frank Strangest died. He was President of National Investigations Committee on UFOs. He was in close contact with Commander Valzor and his crew of Vector 1 Lake Mead near Las Vegas, NV. My question is this? Was Dr. Frank killed, cloned or is he still alive?

MS: We will just say that yes he is still alive and they are trying to keep the conversation in a one-way discussion so that the truth can't come out. And we will say that it is this incredible Commander that came from Venus. Yes. Valiant Thor was here. Also goes back to Valvelerian to address your joint Chiefs of Staff and your Congress and your President. And why is this only hushed up in the darkest of circles talked about something called MJ-12, Majestic 12. And it is time for this discussion to be full circle and we have to say, honor the fact that Dr. Stephen Basset, the one lobbyist in your Congress who is truly honest. All the rest, they are treasonous. We will just say that.

MARIETTA: This person says they would like to know if that creature that the man killed in Mexico was really a baby alien or from another realm? The farmer Lopez was found dead. Why couldn't it save itself? I don't know anything about this story. Is this something you are aware of?

MS: Yes. And we will just say these stories are about the creations that did not come from the hand of God. It comes from the hand of man and the labs that have been created called Area 51 in Pine Gap. All of these places are already being shut down if not already and being cleaned out by the Forces of Light.

MARIETTA: Okay, the next question is from a lady who is reading a book called The Emotion Code by Dr.

Bradley Nelson. In it he states on page 41, your organs are separate intelligences within your body that performs certain functions, specific emotions and feelings. Will you please clarify the last part of this sentence? Do the organs produce emotions. Where can we find this out? Is this something you want to comment on? Can you give us any references?

MS: Yes. There was a book, a series of books found back in the 60s by Dr. \_\_\_\_\_ Third Eye and he speaks about this. Ancient Tibetan wisdom that your Dali Lama knows all about and the red hats and the yellow hats of Tibet. Yes, all the various organs have emotions and they work in unison with the subtle bodies and as you work with the meditations and getting in balance with your meridians, the organs have the correct balance of emotions. And as you can calm the mind down and think with the heart, it helps the understanding that the organs are the key. In the sense when you can talk to your liver, talk to your tummy, talk to the spinal cord, the spleen, the kidneys, even the blood. And you speak to it in the sense of the rolling with the flowing river of life in unison. You can transform this blood that travels through this body to golden light like what is spoken about in the green books. This magic presence because that is what flows through beloved Master St. Germain. This golden blood, not red when it comes to the surface. Gold like your monatomic gold. That is the key here as you heal the body, mind and spirit. The organs work in unison with the higher harmonics of the speed of light and ancient Tibetan wisdom speaks about this and we could talk all night about this.

MARIETTA: This woman says I'm 76 years old and I want to know about if I'll be able to meet my Twin Flame and bear a child in the new world? I would love to raise a child with the wisdom and love I've gathered over the years.

MS: We would say, indeed so. Many of the people of Telos don't have children until they are maybe 100, maybe 200. And also like the Vulcans. Starack of Vulcan did not have Spock until he was 250 years old. A fictional story but maybe not so fictional because it parallels your worlds. And why not? All of these legends and stories are based in truth and the wisdom of what you have not been told by your present books of what Lord Adama speaks of in Telos. Many people are millions of years old and they do not have children until after maybe 300, 200. It is quite awesome to behold. And we will say, still and yet, you will have your Twin Flame and your baby. We love you infinitely more.

MARIETTA: Well this next question brings up something in my locality here. In the last weeks and in the last 3 days, many people who are really awake and aware have made their transitions. Some of them rather suddenly and some of them with an illness, but it is just remarkable of how many is choosing to leave here at this moment. So the next question is asking will everyone on the planet, she says, she doesn't believe that everyone on the planet will die, but that is what some people are saying. And how is it decided who is going to have accidents and how and what is the criteria to decide who is going to have an accident. How does these soul Akashiac records and how does all of that work. There are just a lot of questions here.

MS: We will just say that many as the energies increase in magnitude and we approach 2012. The energies will increase even more and it is about lighting up the trillions of cells and particles in these bodies of living light/living love. And many are choosing at this time to leave because it is so hot in the kitchen. They don't understand the frequencies and a lot of it has to do with caring for this Temple of the Living God where you must put the right light frequencies in. Liquid light, living love. The 22 amino acids that sustain the essence of love and joy and wisdom. How that comes about is knowing what you put in the mouth and you have the free will choice to tell the hand not to go for a doughnut or the jellybeans. Yet, you have to understand that it is healing all the wisdom and for many right now, as the energies are increasing and the stress levels are off the scale and your GOP in exile are pushing fear about pig flu and other events, you must maintain a balance of love and how you take care of this Temple determines how you get to be here. So we are just saying, take time, go slowly. Take a few steps, but do them well and listen to the heart song. That will be the determining factor of how the body handles the energies. It is quite a challenge.

MARIETTA: Well Mother you have went into the next question because we are talking about the 22 amino acids. I've had several people working with the PXP and they want to know if this is something that you can explain a little bit about how it works. Is there something other dimensional about it? Or what is it and you know, why is it given at this time? In this particular time in history so we can heal the bodies. Can you make some comments about how these amino acids are repairing the cells and how that works?

MS: Yes the polysacuride tectides work with the DNA and activate the junk DNA so that energy can add extra strength to all the subtle bodies. And as this, in a sense, heals, repairs the bodies. It gives strength, new wisdom, new love, new life to these bodies. This helps ease that burden that many of us feel where we wake up and we feel like, how many Mac trucks did we hit? Was it 3, was it 4? Maybe a whole line of Mac trucks. And we are just saying, it is in that realm. Got to love the feelings that come up and how the amino acids interact with the PXP/PSP. Not sure of the word, but we only know that the polysacuride peptides is the key determining factor that in a sense adds a boost. Like what is this funny thing you do with a car? The

teenagers. They add something called nitric oxide to the gas to the carburetor and there's this boost like they go off like Luke Skywalker's light speed. The land speeder. We are just saying, the PXP/PSP does the same thing to the DNA. Not a shabby group of events. Talk to your DNA, talk to the body, talk to your organs as you take your PXP and it will heal all levels.

MARIETTA: Well, thank you for helping us understand how these polysaccharides and the peptides work so that we can feel some of these things that have been not functioning at full advantage.

#### Part 4: Q&As

JAMES: Greetings Mother. My question is I heard something about President Obama will be the last president of the United States. If so, will it be in transition with our country being in Galactic Society? Can you elaborate on that?

MS: We will just say that we are not going to say whether he is the last president or not. We know nothing of whether there is ending of this. We are just saying not going to give dates, we are going to say that as we transition into the realm in which you have a sovereign government council of 12 plus 1 world Congress based on love, truth, freedom, peace and justice. It brings it into the discussion in which what St. Germain talked about as America is the I AM race and as we go to that place, the true teachings of what your founding fathers setup. The Democratic Republic and keep it. And we will just say, it is not the last, it is about how we are transitioning and handing the gauntlet to a higher realm where we can ALL have the conversation in a roundtable where there is no head at the table. We are get to sit together and share. Hope that answers the question.

JENNA: I have been confused about the terms Galactic or Galaxy and Universe. I am familiar with the Arantian material in which they talk about a local universe divided into 100 constellations and then each of those constellations are divided into 100 local systems. Exactly what is meant by Galaxy in your language or in terms that I can understand?

MS: The wisdom of the beings of the Arantia Book made a reference in the material in terms of how these tangible terms of how we can bring this to a level where we can talk about a reality in which there are dimensions upon dimensions overlapping each other. There are Father universes, Son universes, Shikina universes. It is in that realm we would say that it is how we can think about this and some of it is only in the language that we use which is very crude in only the sense, to convey the idea. As we were to have the 3D technology of what we have on the ships, [interference]. We are saying that only [inaudible] in which the understanding is we can show you holographically how the universes work overlapping each other. In the sense, you live in a holographic universe that overlaps each other. And there are dimensions upon dimensions interacting with each other and we mean sun/son. And these universes, Father, Son, Shikina. It is about how they interact with each other in divine wisdom and grace. We would say at night when we do the night work, ask to be taken and shown the holographic universe and they will show you. We will show you how it works. Hope that answers the question.

JENNA: It makes it ever so much clearer Mother. Thank you so much and I love you.

MS: Love you too.

GWENA/TX: I asked about Dr. Frank Strangest. So he's still alive?

MS: Yes.

GWENA/TX: Is he in a safe house or is he on Vector 1?

MS: He is in a safe place.

GWENA/TX: Does Alena know that he is still alive?

MS: Yes and she cannot talk about it.

ANGELSUE: Oh Mother. I love you and I'm so grateful for what you and Tara and Mark and Kauila and Beth and all of the beautiful shining ones are doing. May I make a request for a frequency toning that we might ease into these energies in a better mode?

MS: Yes.

ANGELSUE: I love your singing and your toning. Thank you.

[Mother Sekhmet does toning/singing]

MARIETTA: So we thank you for all of that. I know I felt a lot of movement right in the third eye as you were

doing that. Angel Sue are you complete or would you want to make some more comments?

ANGELSUE: Wowzer, that was really cool! Thank you.

MARIETTA: We are happy to hear your voice and I think that toning really energized you.

UNKNOWN: I have a question about service men and service woman who are in the US now. Is there going to be anymore deployment or is that relegated to the past? Can you sort of speak on that Mother?

MS: We will just say that the idea of further deployments is an idea that we would not wish to see go on. In the sense like what Mr. Thomas Jefferson said when you have a standing arm in the time of peace, it creates the atmosphere of mischief. And in that sense, I have a standing army to do mischief. You have a well armed militia to begin with and it's not about gun control and whack jobs and nut cases showing up at town hall meetings with guns to talk about healthcare. It is about people loving each other in the sense of what your Father Founders setup. The idea of deployment is that place in which they are trying to change the atmosphere for pre-emptive strikes and future wars. We would say as NESARA is announced, peace is declared and all the troops come home. I hope that answers your question Lady Master.

UNKNOWN: Mother, I understand there was a woman in Kansas that was 69 years old who was physically beaten by sheriffs to arrest her for the Internal Revenue. I would like to know at what point that will be completely dissolved so they can no longer hurt people?

MS: There are rogue elements going on right now that have to do with the \_\_\_\_ of black hats have laid it out in lavender where you have no longer an IRS. It has been ferried out and the IRS in a sense, they have to answer to the US Treasury Department. At the same time, the IRS, their agents of this so-called correction agencies, secret police, Gestapo if you will, SS are going about doing the work for Darth Vader and his minions even though all of it is fake stories on the people. A war on terror. And we are just saying, IRS, they have been absorbed in other internal agencies like Homeland Gestapo and Blackwater USA. Halliburton \_\_\_\_, \_\_\_\_ & Ruth and we only say as events are coming to an end now. All of these perpetrators, war criminals will be brought to justice. If not already by the Forces of Living Light/Living Love.

UNKNOWN: Thank you Mother, love you.

MS: Love you.

BETH: Mother Sekhmet. This is Beth. I have a question of we did some work earlier this week regarding joining the councils together and going back to Source to ask for peace. Are you able to comment about that?

MS: Yes. We will say that the councils have already decreed that this has already been implemented. As the ripples in the pond filter out and affect this [taps 3 times] 3D world.

TARA: Terra Nova.

MS: Terra Nova. It is affecting all of America and the other places. And we will just say the councils have already decreed peace is the word. Now is the time for peace. This is why it is no accident that the Department of Peace is being brought up so we can have this discussion instead of the Department of Defense. Would be wise to create more of this discussion amongst your various Town Hall Meetings rather than other stories about gun control or why Mr. Obama not helping us. Or why the healthcare is being talked about in a way in which where it is that place where we have to bring it full circle and tell the truth. There are folks out there that don't want to see balance and order. They want to see chaos and create instability and the idea of anything but peace. And we have to say to that energy, you hold no longer any power here. It is that simple. That stupid. We hope that answers the question Lady Master Beth.

BETH: Thank you very much Mother. We will move our conversations away from fear and towards peace and love more and more. Thank you so much.

MS: Yes.

UNKNOWN: Mother I would like to know. I heard Kauila report from the KOS. He read a report where I think it was the KOS that they gave out a message to the entire planet Earth and the 2 people that heard the message were Mark and Beth and they had that beautiful excursion I guess you would say to the Source of Light and God beings of light and all that. It was just a beautiful, beautiful meditation and prayer that they dealt with and they were the only ones on the planet that heard that call for someone to go to ask for the Earth to be cleansed, to be helped and all that. I just wondered did that really happen? I just love that whole concept of everything.

MS: Yes it did. Jacqueline we heard you, speak up.

UNKNOWN: Well I love the idea of 6 billion people and 2 of them heard it and we get to hear it from them and I think it is wonderful and I wanted to thank them. And all of you working with all these beings of light and we are very blessed to be able to hear them. Hear the reports.

MS: Yes. Jacqueline??

JACQUELINE/CANADA: It is wonderful what you are all doing. This year is International Year of Astronomy and I've been talking to a few astronomers about the Galactic Center and the Great Central Sun and that doesn't seem to be in their agenda even though they accepted an image in stained glass on that scene. Now they are going to have another exhibition here in Victoria I think and they are asking for images related to the universe, but no new age themes. And I just thought that was really amusing because I'm sure to you, that is not a new age theme, this is reality.

MS: Yes. And it is a very old age thing. And the idea that they would want to put it in the idea of woo-woo. It is about how they are trying to change the conversation to keep it 3D instead of 5D. And there are many in the Canadian government that know about us and they know who and what we are. They hold much power and we will just say, all about to change. Canada as well as US can [interference] Galactic beings. [inaudible]

MARIETTA: We are grateful for all of you participating and being a part of it. We are grateful that we have all found each other and are able to share the time and this energy and love. And most of all the learning curve so we can move as Mother said, to learn to think with our hearts and get out of our heads. So we are grateful for Mother and all of you who have contributed tonight. A-Team and the participants as well.
